

Notice to Subjects Participating in Clinical Trials

If you are a subject participating in a clinical trial with PRACS Institute Canada B.C. Ltd. ("PRACS") that has not yet been completed, please be advised PRACS terminated all employees effective March 20, 2013, including the qualified investigator for PRACS. Accordingly, PRACS has ceased all operations and is no longer performing any contracts with clinical trial sponsors, continuing its role in any clinical trials, providing any laboratory services or conducting medical end of study safety visits.

If you have any questions about your rights as a research subject for the clinical trial that you are involved in, please contact the designated ethics board for your clinical trial, IRB Services, using the contact information provided on your patient information and consent form. If you have questions about the clinical trial itself, please contact the sponsor that is named on the first page of the patient information and consent form.

Please call 911 in the case of a medical emergency or contact your regular health care provider for all other medical questions.
