I. INTRODUCTION

1. This report ("**First Report**") is filed by PricewaterhouseCoopers Inc. ("**PwC**"), in its capacity as proposal trustee ("**Trustee**") in connection with the Notice of Intention to Make a Proposal ("**NOI**") filed by Starfield Resources Inc. ("**Starfield**" or the "**Company**") on March 7, 2013 (the "**Filing Date**") under Section 50.4 (1) of the Bankruptcy and Insolvency Act, R.S.C. 1985, c. B.-3, as amended (the "**BIA**"). A copy of the Certificate of Filing issued by the Superintendent of Bankruptcy is attached hereto as **Appendix "A"**.
2. PwC was previously retained by the Company to act as financial advisor to assist management in reviewing strategic alternatives to realize on the Company's assets and/or equity.

II. PURPOSE OF REPORT

3. The purpose of this First Report is to:
 - a) Provide this Court with a summary of the following:
 - (i) background information on the Company, including its corporate history, structure, operations, financial position and creditors;
 - (ii) the Company's cash flow forecast for the 9-week period from March 4, 2013 to May 3, 2013;
 - (iii) the proposed court-ordered charges, including a Directors & Officers charge and an Administrative charge;
 - (iv) the Company's proposed post-filing strategy, including the outline of a sale process to be undertaken by the Trustee in conjunction with the Company;
 - (v) the Company's proposed retention payments (the "**Retention Payments**"); and
 - (vi) the Company's request for an extension of the time required to file its proposal (the "**Extension**") to April 26, 2013.
 - b) Recommend that this Court issue an order:
 - (i) approving the terms of the Administrative charge, and proposed priority ranking of such charge;
 - (ii) approving the terms of the Directors' & Officers' charge, and proposed priority ranking of such charge;
 - (iii) approving the Company's post-filing strategy, and authorizing the Company and Trustee to implement same;

- (iv) approving the proposed Retention Payments;
- (v) approving the Company's request for an Extension to April 26, 2013.

III. QUALIFICATIONS

- 4. In preparing this First Report, the Trustee has relied upon unaudited financial information, the Company's books and records, financial information prepared by the Company and discussions with management and legal counsel to the Company. The Trustee has not audited, reviewed, or otherwise attempted to verify the accuracy or completeness of the information. Future-oriented financial information relied upon in this First Report is based on management's assumptions regarding future events.
- 5. Unless otherwise stated, all monetary amounts contained herein are expressed in Canadian Dollars.

IV. BACKGROUND

Corporate History and Structure

- 6. Starfield is a Canadian-based exploration and emerging early-stage development company exploring for copper, cobalt, nickel and platinum group elements ("PGE") in North America. The Company's shares are publicly traded on the Toronto Stock Exchange ("TSX") under the symbol "SRU" and in the U.S. on the Over-The-Counter Bulletin Board under the symbol "SRFDF".
- 7. Starfield was incorporated on April 22, 1994 under the Business Corporations Act (Alberta). The Company amended its articles on October 6, 1994 to change the Company's name to Starfield Communications Group Inc. The articles were amended again on December 18, 1997 to change its name to Starfield Resources Inc. On October 27, 2006, the Company filed articles of continuance in British Columbia. The Company is governed by the Business Corporations Act (British Columbia) and is a reporting issuer in the provinces of British Columbia, Alberta and Ontario, and in the North West Territories. Starfield's registered office is located at 625 Howe Street, Suite 420, Vancouver, British Columbia, and the Company's head office is located at 120 Adelaide Street West, Suite 900, Toronto, Ontario.
- 8. The Company currently holds a direct or indirect interest in the following mineral properties/projects (the "**Projects**"):
 - (i) a nickel-copper-cobalt-PGE project in Ferguson Lake, Nunavut (the "**Ferguson Lake Project**");

- (ii) a nickel-copper-cobalt-PGE project in Montana, USA (the “**Stillwater Project**”);
 - (iii) a copper-silver project in California, USA (the “**Superior Project**”); and
 - (iv) an early stage gold property which straddles the Nevada-California border (the “**Dome Hill Project**”).
9. Substantially all of the Ferguson Lake Project assets are held by Starfield directly. The Company acquired its interest in the above U.S. projects through its acquisition of all of the shares of Nevoro Inc. (“**Nevoro**”), a formerly TSX listed corporation incorporated under the laws of Canada, pursuant to a plan of arrangement in October 2009.
10. Starfield Resources Inc. is the parent company and the primary direct or indirect shareholder of the following entities:
- (i) Nevoro Inc. (Canada);
 - (ii) Sheffield Resources Ltd. (B.C.);
 - (iii) Aurora Platinum Exploration Inc. (B.C.);
 - (iv) Nevoro Copper Inc. (Nevada);
 - (v) Nevoro Montana Inc. (Montana); and
 - (vi) Nevoro Nevada Inc. (Nevada).

The Company’s corporate chart is attached hereto as **Appendix “B”**.

11. The Trustee understands that the Company has not initiated insolvency proceedings in the U.S. There is presently no intention to commence insolvency proceedings in respect of the Company’s Canadian or U.S. subsidiaries. The Company advises that substantially all administrative and Project-related costs are paid for by Starfield.

Company Operations

12. As referenced above, Starfield’s operations consist of three main projects:
- (i) the Ferguson Lake Project, located in the Kivalliq region of southern Nunavut, consists of 10 mineral leases covering 23,935 acres and 107 active claims totaling 220,273 acres. The Company incurred substantial exploration expenditures on the Ferguson Lake property in the last few years as it attempted to define this very large resource. On March 20, 2008, the Company announced positive economics from a preliminary economic assessment of the Ferguson Lake

Project. On February 21, 2012, the study was updated, and continued to show that the project was economically attractive. Per the preliminary economic assessment, the Ferguson Lake Project has indicated and inferred resource estimates of 672 million pounds of nickel, 1 billion pounds of copper and 57 million pounds of cobalt at grades of 0.66%, 1.00% and 0.06%, respectively.

- (ii) the Stillwater Project, comprised of approximately 5,700 acres, is located in south central Montana and consists of 34 patented lode claims, 234 unpatented lode mining claims, 7 unpatented placer claims, 2 mill site claims and 1 tunnel claim. Starfield's interests in the Stillwater Project are held through Nevoro Montana Inc.
 - (iii) the Superior Project, totaling approximately 3,160 acres, is located in northeastern California and consists of 36 patented lode mining claims and 122 unpatented lode mining claims. Starfield's interests in the Superior Project are held through Nevoro Copper Inc.
13. The Trustee understands Starfield no longer intends to pursue the Dome Hill project and in May 2011, the Company entered into a 3 year option agreement with a U.S. gold company to sell its interest the Dome Hill Project over a three year period for \$25,000. As at the date of this First Report, Starfield had received the first 2 payments of \$5,000 each pursuant to the option agreement with the final payment of \$15,000 due in June 2013. However, the Trustee understands that the U.S. gold company has the option to terminate this agreement at any time.
 14. As referenced above, Starfield operates from a 2,150 square foot leased office facility in Toronto, Ontario. The Company also owns a semi-permanent exploration camp on the western shore of Ferguson Lake, Nunavut, capable of accommodating a team of up to 65 persons. There is also a 830 metre gravel airstrip adjacent to the exploration camp, as well as several pieces of construction and exploration equipment located on the camp site.
 15. The Trustee understands that during 2012, Starfield had two full-time salaried employees. However, both individuals left the Company prior to January 1, 2013. In addition, the former CEO and CFO each left the Company on November 30, 2011 and March 23, 2012, respectively. As at the Filing Date, Starfield had four consultants under contract, including the present CEO and the CFO. All four consultants are being paid in the ordinary course.

Flow-Through Share Structure

16. As is common among exploration and early stage resource development companies, Starfield does not yet generate revenues from operations and relies on the equity markets to finance its activities. As the public company in the corporate group, financing activities have historically been undertaken by the Company, with the proceeds from such financings used to fund the activities of the Company and its subsidiaries. Since approximately January 2012, the equity markets have effectively been closed to exploration and early stage development companies.
17. The Company's three most recent equity financings have been through the issuance of flow-through common shares. As at the date of this First Report, Starfield had approximately 718 million issued and outstanding common shares, of which approximately 229 million are flow-through common shares.
18. A flow-through share is a Canadian tax-based financing incentive that is available to, among others, the mining sector for qualified projects located in Canada. It is a type of share issued by a corporation to an investor, pursuant to a subscription agreement with the corporation, under which the issuing corporation agrees to incur eligible Canadian exploration expenses (the "CEEs") in an amount up to the consideration paid by the investor for the shares in a particular year. The corporation renounces to the taxpayer an amount in respect of the expenditures so that the CEEs are considered to be the investor's expenses for tax purposes. As a result of the corporation renouncing the expenses, the investor can deduct the expenses for tax purposes as if incurred directly.
19. Subject to certain conditions, the CEEs qualify for the "look-back" rule, which allows a corporation to renounce the CEEs incurred within an entire calendar year ("Year 1") with the renunciation being effective for tax purposes in the preceding calendar year ("Year 0"), the year the investor purchased the flow-through shares. Where a corporation has not expended all or part of the amounts it has renounced by the end of Year 1, the corporation must notify the investor of the shortfall within two months after the end of Year 1. The investor is vulnerable to having the deductions taken in calculating their Year 0 taxes being partially denied, income taxes being reassessed and any amount owing becoming immediately due. In an effort to protect investors from such adverse consequences, subscription agreements typically contain an indemnity in favour of the investor from the issuing corporation. Furthermore, the corporation is also subject to penalties and interest from Canada Revenue Agency ("CRA") for the shortfall to compensate CRA for accelerating the investor's deduction by one year.

20. In 2010, Starfield raised gross proceeds of approximately \$4.9 million from investors through two private placements of flow-through common shares (the “**2010 Flow-Through Investors**”). All of the proceeds were raised for exploration purposes and, therefore, the CEEs were renounced to investors in 2010. In February 2012, Starfield notified the 2010 Flow-Through Investors that the Company’s expenditures in 2011 resulted in a shortfall of approximately \$969,000. As a result, the Company is subject to the provisions of the associated flow-through subscription agreement which the Company estimates has resulted in a contractual indemnity obligation to the 2010 Flow-Through Investors of approximately \$450,000. Starfield was also subject to penalties and interest from CRA of approximately \$60,000, although all these amounts were paid in 2012.
21. In May 2011, Starfield raised gross proceeds of approximately \$3.8 million from investors through the private placement of flow-through common shares (the “**2011 Flow-Through Investors**”). All of the proceeds were raised for exploration purposes and, therefore, the CEEs were renounced to investors in 2011. In December 2012, Starfield notified the 2011 Flow-Through Investors that the Company’s expenditures in 2012 resulted in a shortfall of approximately \$2.9 million. As a result, the Company is subject to the provisions of the associated flow-through subscription agreement which the Company estimates has resulted in a contractual indemnity obligation to the 2011 Flow-Through Investors of approximately \$1.4 million. In addition, the Company is subject to penalties and interest from CRA of approximately \$320,000.
22. In summary, the Trustee understands that the Company has potential liabilities relating to Starfield’s failure to incur adequate CEEs in connection with the issuance of its flow-through shares of approximately \$320,000 to CRA, \$450,000 to the 2010 Flow-Through Investors, and \$1.4 million to the 2011 Flow-Through Investors, as at the date of this First Report.

Historical Financial Results

23. The Company’s most recent year-to-date (“**YTD**”) summarized financial statements are presented as at November 30, 2012. Set out below is a summary of the Company’s financial results for: (i) the fiscal period ending 2010; (ii) the fiscal period ending 2011; (iii) the fiscal period ending 2012; and (iv) YTD November 30, 2012 (unaudited).

Starfield Resources Inc.
Consolidated statement of income ⁽¹⁾
(in \$000s CAD)

	Nine months ended November 30, 2012	Year ended February 29, 2012	Year ended February 28, 2011	Year ended February 28, 2010
Expenses	\$ 1,932	\$ 6,644	\$ 5,956	\$ 2,075
Write-down of mineral properties	-	1,000	-	-
Amortization of equipment	30	57	79	110
Foreign exchange loss	-	-	27	-
Other expenses (income)	(5)	774	430	484
Loss before income taxes	\$ 1,957	\$ 8,475	\$ 6,492	\$ 2,669
Income tax expense	-	129	30	1,221
Net loss	<u>\$ 1,957</u>	<u>\$ 8,604</u>	<u>\$ 6,522</u>	<u>\$ 3,890</u>

(1) Fiscal 2010 is based on Canadian GAAP. Subsequent years were prepared in accordance with IFRS.

24. As none of Starfield's mineral properties are in production, the Company currently has no source of revenue. As detailed in the tables above, the Company had incurred significant recurring net losses over the past three fiscal years. Furthermore, the Company's net loss has increased each year since fiscal 2010. The Trustee understands that the majority of Starfield's expenses are related to exploration, maintenance and environmental remediation costs for the Ferguson Lake Project, claim maintenance fees related to the Projects, and limited exploration expenses related to the Stillwater Project.

25. Below is a summary of the Company's unaudited balance sheet as at November 30, 2012:

Starfield Resources Inc.			
Consolidated balance sheet as at November 30, 2012			
(in \$000s CAD)			
ASSETS		LIABILITIES AND SHAREHOLDER'S EQUITY	
Current Assets		Current Liabilities	
Cash	\$ 876	Accounts payable and accrued liabilities	\$ 748
Accounts receivable	26	Income tax payable	29
Prepaid expenses and deposits	420	Total Current Liabilities	<u>\$ 777</u>
Total Current Assets	<u>\$ 1,322</u>		
Mineral properties	\$ 13,893	Shareholders' Equity	
Equipment	186	Share capital	155,155
		Contributed surplus	15,196
		Warrants	2,772
Total Assets	<u>\$ 15,401</u>	Retained earnings (deficit)	(158,499)
		Total Shareholders' Equity	<u>\$ 14,624</u>
		Total Liabilities and Shareholders' Equity	<u>\$ 15,401</u>

26. The November 30, 2012 balance sheet reflects that the Company has an accumulated retained earnings deficit of approximately \$158 million. The notes accompanying the Company's

November 30, 2012 financial statements state that the Company's operating budget indicates that the cash on hand at November 30, 2012 will be depleted by April 2013 if the Company continues as a going concern and does not obtain additional cash through financing and/or investing activities. Furthermore, the November 30, 2012 balance sheet does not reflect the Company's obligations in connection with the May 2011 flow-through share issuance, as detailed above.

27. As a result of the sustained losses and challenging financial markets, Starfield has exhausted its liquidity and has no ability to raise additional equity, which historically has been the primary source of capital for the Company, and as such, has elected to file a NOI and restructure the Company.

Creditors

28. A copy of the creditor list included in the NOI filing is attached as **Appendix "C"**.
29. The Trustee understands that the Company does not have any secured creditors. The Company advises that all employee related amounts are current, all required remittances of employee withholdings and HST have been made when due, and the Company has no pension obligations whatsoever.
30. The Company estimates that it had total unsecured payables and accrued liabilities of approximately \$2.3 million as at March 6, 2013 (inclusive of the contractual indemnity claims of the 2010 Flow-Through Investors and the 2011 Flow-Through Investors). The following table summarizes the amounts owing to unsecured creditors:

Starfield Resources Inc.	
Estimated unsecured creditors as at March 6, 2013	
(\$000)	
Trade payables	\$ 144
Accrued liabilities	1,857
Taxes payable	<u>320</u>
	\$ 2,321

31. In addition, the Company is a defendant in three litigation matters, as follows:

- (i) a claim by Discovery 2010 Flow-Through Limited Partnership seeking damages in the amount of \$114,569.00 plus interest and costs relating to the contractual indemnity contemplated in its 2010 Flow-Through Investors subscription agreement;

- (ii) a claim by Nicholson & Associates Natural Resource Development Inc. for alleged non-payment of invoices in the amount of \$146,123.83 plus interest and costs; and
- (iii) a confidential private arbitration relating to a historic joint venture.

Each of these litigation matters is ongoing and is subject to defences and counterclaims asserted, or to be asserted by Starfield. The parties to these matters have been served with the materials in support of the Company's application.

V. COMPANY'S CASH FLOWS FOR PERIOD ENDING MAY 3, 2013

32. Starfield, with the assistance of the Trustee, has prepared consolidated cash flow projections of its receipts and disbursements for the 9-week period ending May 3, 2013 (the "**Cash Flow Projection**"). The Cash Flow Projection was filed with the Office of the Superintendent of Bankruptcy Canada on March 8, 2013. A copy of the Cash Flow Projection is attached hereto as **Appendix "D"**. The Trustee has reviewed the assumptions supporting the Cash Flow Projection and believes the assumptions to be reasonable. A copy of the Trustee's statement on the Cash Flow Projection is attached hereto as **Appendix "E"**.
33. As a result of its constrained liquidity position, the Company has suspended its exploration and development activities at the Projects. The Cash Flow Forecast assumes that the Company will continue to fund normal course obligations relating to the preservation and maintenance of the Projects in Canada and the U.S., such as claim maintenance fees and other required maintenance costs, during these BIA proceedings. The Trustee understands these costs were traditionally paid by Starfield through its Canadian accounts, and payment of these expenses going forward are necessary to preserve Starfield's interests in these properties during the proposed sales process.
34. As a result, based on the assumptions made by Starfield contained in the notes to the Cash Flow Projection, the Trustee believes that Starfield will have sufficient funds to meet its current obligations through to May 3, 2013.

VI. PROPOSED SALES PROCESS

35. The Trustee understands that in June 2011, Starfield retained the services of Gryphon Partners Canada Inc. to assist the Company with raising additional capital, finding an investor to acquire control of the Company's outstanding shares, or a sale of all or substantially all of

the Company's assets. The Trustee understands that the Company did not receive any serious expressions of interest through that process.

36. In November 2012, the Company retained PwC to assist and advise the Company on strategic alternatives to maximize value of the Company and its assets, including but not limited to a sale of all or a material portion of the assets of Starfield. PwC, with the assistance of Starfield's management, undertook a sale and investment solicitation process ("**SISP**") in which it prepared an information memorandum detailing the sale or investment opportunity and canvassed over 125 potential buyers or investors beginning on November 20, 2012. Each prospect received a copy of the information memorandum and was solicited to sign a Confidentiality Agreement ("**CA**") and conduct further due diligence. A total of four confidentiality agreements were executed and two non-binding letters of interest ("**LOIs**") were received as at February 22, 2013. Neither of these LOIs has resulted in a binding offer as at the date of this First Report.
37. The Trustee believes that a brief continuation of the sale or investment solicitation process in these BIA proceedings will bring a sense of finality to the SISP and provide the highest likelihood of a transaction or series of transactions to maximize value for the Company's stakeholders. The Trustee proposes to aggressively re-market the Company's assets to third parties for an additional period of approximately 37 days as follows: 30 days for submission of a non-binding LOI and an additional 7 days for submission of a binding offer.
38. The proposed sales process (the "**Sales Process**") would provide a further means for testing the market, gauging interest in the Company and/or its assets and determining whether a transaction that would result in realizations greater than liquidation value is available. The Trustee will be fully involved in all aspects of the proposed Sales Process to ensure that the marketing process is fair and reasonable, and that prospective interested parties have the ability to make an offer for the Company and/or its assets. The proposed Sales Process contemplates that the Company is not required to accept the highest, best or any offer received.
39. The principal elements of the proposed Sales Process are as follows:
 - (i) As soon as practical, after the Sales Process is approved by this Court, an information memorandum will be sent to a list of potentially interested parties by the Trustee, which list has been developed by the Trustee and the Company.
 - (ii) Once a confidentiality agreement has been signed by any interested parties, they will receive access to an electronic data room to conduct preliminary due

diligence. The electronic data room is being refreshed by the Company with assistance of the Trustee.

- (iii) After preliminary due diligence has been conducted, interested parties are required to submit non-binding LOIs to the Trustee by 12pm EST on April 12, 2013 (the **"LOI Deadline"**). A template agreement for a non-binding LOI will be available in the Company's electronic data room at least two weeks prior to the LOI Deadline.
- (iv) The acceptability of any LOI received is to be determined by the Company, in consultation with the Trustee.
- (v) If no satisfactory LOIs are received by the LOI Deadline, then the Company, in consultation with the Trustee, will consider whether to continue the Sales Process, and the Trustee will advise the Court accordingly.
- (vi) If satisfactory LOIs are received, a potential purchaser will be required to submit a binding asset purchase agreement (**"APA"**) by 12PM EST on April 19, 2013. These APAs will then be reviewed by the Trustee and the Company.
- (vii) Management and the Trustee will provide their recommendation to Starfield's board of directors with respect to selecting offers to consummate a transaction, and the Trustee shall promptly notify all successful bidders.
- (viii) Once the terms and conditions of all recommended offers have been finalized, such offers will be submitted to this Court for approval. Closing of each transaction is anticipated to occur shortly thereafter.

40. The Trustee notes that while the proposed time-frame is condensed, the Trustee is of the view that the deadlines proposed in the Sales Process are reasonable given the Company's previous marketing efforts and its lack of liquidity.

41. The Trustee will report back to this Court if facts or circumstances require the Company or the Trustee to re-evaluate the time periods or the Sales Process based on facts or circumstances at that time. The Trustee will be assisted by PricewaterhouseCoopers Corporate Finance Group in the Sales Process.

VII. SUMMARY OF PROPOSED COURT-ORDERED CHARGES

42. The Company proposes a charge in favour of its legal counsel, counsel to the directors of Starfield, the Trustee and the Trustee's legal counsel to assist in these NOI proceedings (the

"Insolvency Professionals") in an amount not to exceed \$100,000, charging all of the assets of the Company as security for the professional fees and disbursements incurred both before and after the Filing Date (the **"Administrative Charge"**). The Trustee understands that the Company is current in the payment of the Insolvency Professionals' invoices and, subject to an accrual relating to the preparation of the Company's application and this First Report, there are no material amounts presently owing by the Company to the Insolvency Professionals.

43. Starfield was only able to provide the Insolvency Professionals with minimal retainer fees for their services as the Company needs its available cash to fund its limited operations during these proceedings. Depending upon the timing of cash receipts and disbursements, cash may not be available to pay ongoing professional fees on a timely basis and hence the reason the Administrative Charge is being sought.
44. The Company believes it is critical to the success of its restructuring to have such a charge in place to ensure that its Insolvency Professionals are protected with respect to their fees and disbursements.
45. The Company further proposes a charge to indemnify its directors and officers by way of a Directors' and Officers' Charge (the **"D&O Charge"**), for liabilities incurred by the Company that result in post-filing claims against the directors and officers in their personal capacities.
46. The Company does maintain an insurance policy for its directors and officers and that the premiums for such policy have been paid monthly and paid in respect of the current month.
47. The amount of the D&O Charge is capped at \$100,000 and was estimated by the Company's board of directors and its legal advisors by taking the provisions of the insurance policy for its directors and officers. The D&O Charge is proposed to rank immediately subsequent to the Administrative Charge as against all assets of the Company.
48. The board of directors and its legal counsel is not aware of any material directors' and officers' charges or potential liabilities; however, for the purpose of a filing, they believe the \$100,000 affords them some protection for issues that may arise. The Company's directors and officers shall only be entitled to the benefit of the D&O Charge to the extent that they do not have coverage under any directors' and officers' insurance policy, or to the extent that such coverage is insufficient to pay amounts indemnified.
49. Furthermore, the Trustee has been advised that due to the potential for personal liability, the directors and officers of the Company are unwilling to continue their services and involvement in this restructuring without the protection of a small D&O Charge. As the

Company will require the participation of its directors and officers to effect a successful restructuring, the Trustee believes that the D&O Charge is required and reasonable in the circumstances.

50. The Trustee is of the view that the proposed Administrative Charge and the proposed D&O Charge (together the **"Court-Ordered Charges"**) and rankings are required and reasonable in the circumstances of the BIA proceedings, in order to preserve the Company's operations and attempt to maintain an enterprise value and, accordingly, supports the granting and the proposed priority ranking of the Court-Ordered Charges. The Trustee understands that the Company does not have any secured creditors (excluding any purchase money security interests, specific equipment lessors and statutory encumbrances) and, therefore, no secured creditor would be affected by the proposed Court-Ordered Charges. Furthermore, all known creditors of the Company, including the 2010 Flow-Through Investors and the 2011 Flow-Through Investors, have received notice of these proceedings.

VIII. PROPOSED RETENTION PAYMENTS

51. The Company believes that incentives are required to ensure that the consultants Starfield currently has under contract, including the current CEO and the current CFO, are willing to continue their services with the Company in its current circumstances through to completion of the Sales Process.
52. The Company, in conjunction with the Trustee, has formulated and is seeking this Court's approval of the Retention Payments to the Company's four remaining consultants (the **"Key Employees"**) in the aggregate amount of \$25,000 per month (the **"Aggregate Monthly Amount"**) payable on the 15th of each month in respect of the current month, commencing March 15, 2013, on following terms:
- (i) the Aggregate Monthly Amount is to be distributed among the Key Employees in accordance with a memorandum of distribution to be approved by the board of directors of the Company, the Trustee and the Key Employees on or before the March 15, 2013;
 - (ii) to be entitled to receive his or her share of each Aggregate Monthly Amount a Key Employee must not have resigned or had his contract terminated for cause prior to the applicable payment date; and
 - (iii) Each Retention Payment is subject to the Company having sufficient available cash to pay the Aggregate Monthly Amount, and the Retention Payments shall

cease upon the Company making or being deemed to have made an assignment in bankruptcy.

53. The Company believes that absent the approval of the Retention Payments in favour of the Key Employees, they are likely to seek other employment opportunities. The departure of any of the Key Employees would undermine Starfield's restructuring efforts and could have an adverse impact on the success of the Company's proposed Sales Process.
54. Starfield's Board of Directors have reviewed and approved the proposed Retention Payments and the terms and conditions thereof.
55. Based on the foregoing, the Trustee is of the view that the proposed Retention Payments appears to be appropriate and reasonable in the circumstances, in order to preserve the Company's operations and maintain some enterprise value and, accordingly, supports the Company's request for approval of the Retention Payments.

IX. COMPANY'S REQUEST FOR AN EXTENSION

56. The Company is seeking an extension to April 26, 2013 of the time to file a proposal to permit it and the Trustee to undertake the Sale Process described above. This represents a 20-day extension to the initial 30-day stay provided for in the BIA.
57. The Trustee supports the Company's request for an extension for the following reasons:
 - (i) the Company is acting in good faith and with due diligence in taking steps to facilitate a sale of its operations;
 - (ii) it is the Trustee's view that an extension will not prejudice or adversely affect any group of creditors;
 - (iii) the Cash Flow Projection indicates that Starfield should have sufficient liquidity to continue to fund operations through the period ending April 26, 2013; and
 - (iv) at least 30 days will be required to establish whether there is any serious interest in acquiring the Company and/or its assets.
58. While it is too early to say whether a viable proposal will be presented by the Company to its creditors, the Trustee is of the view that the early request of the extension is appropriate given the circumstances, as it minimizes costs incurred in re-attending before this Court prior to April 7, 2013 solely for the purposes of seeking a short extension of the stay until the LOIs have been received and reviewed. Given that these LOIs are not due until April 12, 2012 (and the extension will have to be sought prior to that date), the current extension request more

properly reflects the timeframe by which the Trustee will be able to provide a meaningful update to this Court on the progress of the Sales Process.

X. RECOMMENDATION

59. The Trustee recommends that this Court issue an Order approving the proposed Court-Ordered Charges, the proposed Sales Process to sell the Company or its assets, the proposed Retention Payments, and the Company's request for an Extension as this would be the best course of action available for all stakeholders for the following reasons:

- (i) the Company qualifies for and requires protection under the BIA due to its liquidity issues and precarious financial position;
- (ii) the proposed Court-Ordered Charges and rankings are required and reasonable in the circumstances of the BIA proceedings, in order to preserve the Company's operations and maintain an enterprise value;
- (iii) the retention of the Key Employees is critical to maintaining operations during these proceedings and the success of the proposed Sales Process; and
- (iv) the proposed Sales Process will preserve some value for the assets of Starfield, whereas, should bankruptcy ensue, an immediate liquidation of the Company would likely result in an immediate and substantial diminution in realizable value for all creditors.

Dated the 8th day of March, 2013.

RESPECTFULLY SUBMITTED,

Paul van Eyk, CA-CIRP, CA-IFA
Senior Vice-President

PricewaterhouseCoopers Inc.
In its capacity as Proposal Trustee of

Notes:

- 1 Represents bank account balances in 100% owned Starfield subsidiaries located in the U.S. in the form of certificates of deposit and cash. Starfield is currently in the process of transferring these funds to its Canadian accounts, although the exact amount and timing is an estimate and subject to change.
- 2 Ongoing normal course expenses for Starfield's U.S. mining properties relating to claims maintenance, property leases, utilities, etc.
- 3 Ongoing normal course expenses for the Ferguson Lake property.
- 4 Represents compensation costs for all four consultants currently under contract, including the CED and CFO. This forecast also assumes full payment of the proposed retention payments to each eligible consultant, subject to Court approval.
- 5 Represents rent and utilities costs for head office facility.
- 6 Represents premiums for existing D&O policy. This forecast assumes a lump sum prepayment in the week ending March 15, 2013 for all premiums owing to July 26, 2013.
- 7 Represents general office and administrative costs.
- 8 Professional fees for Starfield's legal counsel, legal counsel to the board of directors, the proposal trustee and its legal counsel, and costs related to the proposed sales process. This forecast includes retainers paid to Starfield's advisors and assumes these amounts are fully drawn by the end of the forecast period.

This cash flow statement is prepared pursuant to the requirements of paragraphs 50(9)(b) and 50.42(b) of the Bankruptcy and Insolvency Act and solely for that purpose.

Dated at Toronto, Ontario, this 8 day of March 2013.

-- FORM 29 --
Trustee's Report on Cash-Flow Statement
(Paragraphs 50(6)(b) and 50.4(2)(b) of the Act)

In the matter of the notice of intention to file a proposal of
Starfield Resources Inc.
of the City of Toronto, in the Province of Ontario

The attached statement of projected cash flow of Starfield Resources Inc., as of the 8th day of March, 2013, consisting of a weekly statement of projected cash flow for the period from March 4, 2013 to May 3, 2013, has been prepared by the management of the insolvent person for the purpose described in the notes attached, using the probable and hypothetical assumptions set out in the notes attached.

Our review consisted of inquiries, analytical procedures and discussion related to information supplied to us by the management and employees of the insolvent person. Since hypothetical assumptions need not be supported, our procedures with respect to them were limited to evaluating whether they were consistent with the purpose of the projection. We have also reviewed the support provided by management for the probable assumptions and preparation and presentation of the projection.

Based on our review, nothing has come to our attention that causes us to believe that, in all material respects,

(a) the hypothetical assumptions are not consistent with the purpose of the projection;

(b) as at the date of this report, the probable assumptions developed are not suitably supported and consistent with the plans of the insolvent person or do not provide a reasonable basis for the projection, given the hypothetical assumptions; or

(c) the projection does not reflect the probable and hypothetical assumptions.

Since the projection is based on assumptions regarding future events, actual results will vary from the information presented even if the hypothetical assumptions occur, and the variations may be material. Accordingly, we express no assurance as to whether the projection will be achieved.

The projection has been prepared solely for the purpose described in the notes attached, and readers are cautioned that it may not be appropriate for other purposes.

Dated at the City of Toronto in the Province of Ontario, this 8th day of March 2013.
