The papers, paper mills, and printer utilized in the production of this publication are all certified to Forest Stewardship Council (FSC) standards, which promote environmentally appropriate, socially beneficial, and economically viable management of the world’s forests. The publication was printed on paper containing 10% post-consumer waste material. The materials used in the production of this book were created using 100% renewable energy. Although the *Outlook* is available in print format, we have limited the print run and encourage you to select the electronic format if you are considering purchasing the full book. This will help us realize our commitment to the environment.
