## Joint Committee on Taxation Issues Report on Revenue Proposals in President Obama's FY 2012 Budget

The Joint Committee on Taxation today issued a 647 page description of revenue proposals contained in the FY 2012 budget proposals submitted by President Barack Obama to Congress on February 14, 2011. The report also includes estimates for the President's revenue proposals previously issued by Joint Committee on Taxation (JCT) staff in March.

The Joint Committee on Taxation each year provides a description of revenue proposals contained in federal budgets proposed by the President. For each provision, JCT staff provide a description of present law and the President's proposal (including effective date), and an analysis of policy issues related to the proposal. JCT staff also provide a reference to relevant prior budget proposals or recent legislative action.
