

PricewaterhouseCoopers' Snapshot Survey – Company Cars, Ireland

PricewaterhouseCoopers' Reward Advisory group are delighted to present the tenth in a series of Snapshot Survey Reports – **“Company Cars, Ireland”**.

Following the tremendous success of the first PricewaterhouseCoopers' Company Cars Snapshot Survey, the Reward Advisory group has just published the 2nd Company Cars Snapshot Survey which provides up-to date information on car benefits offered to employees at various levels within 45 Irish organisations. This survey is now available to non-participant organisations to purchase.

The survey provides comprehensive data on the following:

- Information on the reasons for providing car benefits and eligibility criteria;
- Data on company car values, models and types, by job level;
- Annual car allowance values by job level;
- Additional information on car expenses paid (i.e. petrol, mileage, insurance, tax and maintenance).

This survey will be of interest to those who are keen to explore the latest trends in relation to car benefits. It will be of particular interest to those with responsibility for the provision of car benefits within their organisation, who may be looking to control the cost of benefit provision while continuing to deliver 'perks' that motivate employees, and ensure that those who require cars to do their job are not inconvenienced by any modifications to existing schemes.
