- Monitoring the statutory deadlines and working closely with your company/ branch to meet the compliance filing deadlines
- Preparation and filing of an estimated chargeable income which has to be filed within three months from the accounting year end
- Preparation/ reviewing monthly/quarterly tax provision calculations based on your information and highlight any tax issues identified in the course of our preparation/ review of the information provided
- Preparation/ reviewing the tax computation and Form C based on your information and highlight any tax issues identified in the course of our preparation/ review of the information provided
- Submitting the finalised tax computation and Form C to your company/ branch for your signature and agreement before filing with the IRAS
- Advising on the tax payments due dates upon receipt of the Notice of Assessment

Global Compliance Services (GCS)

In today's evolving regulatory environment, global compliance management has become an increasingly complex and risky area. Operating in numerous countries requires coordination of subsidiaries with diverse accounting practices, legislative environments and local business customs.

Our GCS network, part of our broader Tax Management & Accounting Services (TMAS) practice, comprises a network of local country compliance service teams, supported by proven process, technology and effective central coordination. Our GCS network offers coordinated compliance services spanning:

- Direct tax compliance
- Indirect tax compliance
- Tax accounting and reporting

Each of these services is overseen by central/regional Client Relationship Managers. Our services are also underpinned by our Encompass technology, helping us coordinate worldwide activity and giving you online oversight and access to the information you need.
