

# Connecting Minds @ Work for Finance Professionals

## Full Day Workshop

*Uncovering greater self-awareness and translating that knowledge into a more effective approach to communicating with others.*

### Who should attend?

Finance professionals who wish to improve their communication skills and advance collaboration with their colleagues and their customers.

### Objective

- To provide a framework of self-awareness and understanding of individual preferences and strengths;
- To understand the other party's preferences and strengths, and the impact of this within the group; and
- To give participants an appreciation of different styles and provide a common and neutral language for which to discuss differences.

### Benefits of attending

As Finance professionals, we interact with people across varying functional areas with different perceptions of the world. How then can we understand these differences and develop interpersonal strategies to get around these communication barriers?

This workshop aims to facilitate your understanding of how thinking and behaviour affect the work environment. You will learn how to leverage your own strengths and appreciate what others uniquely bring to the group.

By the end of this program, you will:

- Understand other's perception of you
- Decode people's thinking and behaviour
- Use a strength based approach to understand what you and others bring to the table
- Learn how to reduce conflicts
- Learn effective communication strategies
- Enhance personal power and foster team engagement
- Receive a personalised detailed Emergenetics profile
