The Academy has been awarded the Platinum Approved Learning Partner of the ACCA (Association of Chartered Certified Accountants)

For the fourth year, the Academy of the consultancy firm PwC has been offering a complex study programme to gain an international qualification - the ACCA - which is considered one of the most prestigious globally recognised certifications in the field of financial management and management accounting. After only two years in operation, the Academy gained the status of "Golden Partner", and this year it has received the highest award of "Platinum Partner" for providing ACCA courses (Platinum Approved Learning Partner).

This accreditation confirms that the Academy is well managed and organised, and that it has received excellent feedback on the high quality of its tutors and the additional course material prepared for each examination paper. Approval is given to tuition providers who demonstrate that they meet the challenging performance targets set by the ACCA. Last but not least, Platinum approvals are granted only to top-quality tuition providers, whose pass rates are consistently above the global average and who the ACCA is confident to recommend to students. The ACCA has also accredited the Academy as an ACCA CPD Provider (Continuing Professional Development). This allows the Academy to offer all our training programmes and seminars to ACCA members.

The Academy's mission is to develop the future leaders that companies need to succeed in the global marketplace by providing internationally recognized professional qualifications, aligned with business and soft skills training. Visit www.pwcacademy.sk to learn more about the Academy courses.
