

Redesigning Finance for the Digital Age

In this digital age, it is imperative that Finance function priorities are aligned with the organisation's overall digital strategy.

The key question that CFOs are asking today is: "How does one go about developing a **"digital blueprint"** for Finance that is fit for growth?

Digital Finance

It's about **re-defining** the finance operating model, **facilitating** underlying systems, **empowering** people and **enabling** organisational change

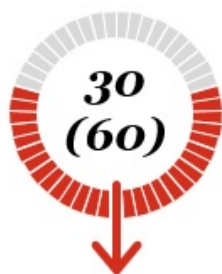

Finance improvements shown by early adoption of Digital

Monthly & annual reporting

days for
finalisation of
monthly / annual
reports

Budgeting

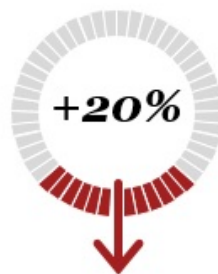

days to complete
the budget

Controlling FTEs

less FTEs in
Controlling

Business Insights

more time spent on
data analysis vs.
data gathering

Cost of Finance
