Tariff classification decisions of customs authorities are available online

The State Customs Service of Ukraine (SCSU) has made public tariff classification decisions approved in 2011. The database contains tariff codes for more than 20,000 goods. This information is available on the official website of SCSU (www.customs.gov.ua).

It is recommended to consult this database prior to customs clearance. This will help to reduce the likelihood of disputes with the customs authorities and avoid delays of customs clearance.
