

EuroCham Breakfast Briefing

Refreshing value chains in Vietnam – Supplier and Supply Chain Management examples

As a newly emerging economy, Vietnam's logistics market is considered a very promising opportunity for investors, for both local and foreign. Average growth rate of 25 percent per annum; developing business of retailing, consumer goods, technology and automobile manufacturing; and increasing trend of applying streamline distribution models from MNCs are among of reasons that help to develop this market's potential.

Join this Breakfast briefing to discuss more with our guest speakers from PwC Vietnam and Metro on the supply chain environment in Vietnam, with focus on how you can utilize your suppliers to support your strategic business goals. They will present an overview of how to manage suppliers effectively and discuss a case-study on using this theory practically in Vietnam.
