PwC's "After Six Club" – a club for successful people!

PwC Azerbaijan has established **PwC's "After Six Club"**, interactive platform for successful business people to do networking, socialize and discuss hot business topics. The club unites clients, partners and friends of PwC Azerbaijan and embraces two missions: "Networking Café" Informal Discussions and "Special You" Benefit Program. The main purpose of this project is bringing successful, bright and intellectual people together.

Yesterday, on 26th November PwC's "After Six Club" hosted its second meeting - **"Big Bosses, Money & Business"** at Alov Jazz Bar of Fairmont Baku Hotel. Fairmont Baku Hotel is the official partner of PwC Azerbaijan and "After Six" project, in particular. The meeting featured **PwC's 17th Annual Global CEO Survey** introduced by our **Consulting Director, Julien Hartley**.

"We are planning to host our next meetings in Flame Towers premises, in one of modern cultural destinations, in a premium concept store and other venues. The upcoming meetings will consequently feature **"Cities of Opportunity"**, **"Live.Love.Laugh"** and **"Business in High Heels"** concepts. The content for each function will be based on our global thought leadership", **mentioned Aysel Suleymanova, Marketing and Communication Manager of PwC Azerbaijan** in her address to club members.

"PwC is a company with **180 years history**: we strongly feel the necessity to share our global knowledge and expertise with our clients and partners not only in a format of traditional business interaction but also in a friendly environment. Thus, today we will be talking about PwC's 17th Annual Global CEO Survey" – one of the signature publications of the firm", **mentioned Petko Dimitrov, Partner of PwC Azerbaijan** in his opening speech.

What is the vision of CEO's of various countries on the similar problems? CEO's of which countries are more confident in revenue growth? Which risks cause the most concern of CEOs all over the world? These and other related questions have been responded by Julien Hartley in his presentation on the key findings of PwC's 17th Annual Global CEO Survey.

"Every year we conduct a large-scale survey among 1500 CEOs of the world's major companies for better understanding the matters on the agendas of global business leaders. The results of the survey are made public at the annual meeting of the World Economic Forum in Davos. They share their opinions with us on how much changes in the global economy affect the development of their industries and companies, where they see opportunities for future growth and the targets they set for their business in both the short- and long-term", **mentioned Julien Hartley in his speech**.

Notes for editor:
