

Customs Services

Introduction

Businesses involved in international trade must navigate the complexities and frequent changes in customs regulations. Our specialized customs team, comprising experts in customs, legal, and tax matters, is ready to provide the expertise needed to ensure your business remains compliant, manages risks effectively, and makes strategic decisions that enhance profitability and competitiveness. We offer a comprehensive range of customs services, from technical support and tailored training sessions to court representation in customs disputes, all aimed at enhancing the operational efficiency and financial sustainability of your business.

Our Customs Services Include:

1. Customs Advisory Services
2. Customs Support Services
3. Customs Compliance Services
4. Customs Dispute Resolution Services

Customs Advisory Services

Our Customs Advisory Services include:

Review of Regulatory Acts and Preparation of Tailored Advice:

- Review of regulatory acts and preparation of tailored advice based on specific inquiries concerning customs legislation

Examination of Contracts:

- Examination of various contracts (distribution, sale and purchase, transport agreements) from a customs law perspective to identify and mitigate potential customs-related risks

Clarification Letters to Authorities:

- Preparation and submission of clarification letters to state authorities to resolve uncertainties in customs laws

Advising on Customs Procedures in Free Economic Zones:

- Advising on customs procedures and operations within local free economic zones to facilitate smoother interactions with free economic zone authorities

Benefits:

Cost Savings and Compliance:

- Cost savings by avoiding fines and legal issues

Optimized Operations:

- Compliant business transactions

Enhanced Reputation:

- Enhanced reputation with regulatory bodies through proactive resolution of legal uncertainties

Capitalizing on Free Economic Zone:

- Significant cost savings and uninterrupted business operations by leveraging tax incentives and reduced customs tariffs in free economic zones

Customs Support Services

Our Customs Support Services include:

International Trade Activity (ITA) Support:

- Conducting economic feasibility assessments, calculating preliminary customs duties, and consulting on goods classification

Green Corridor Status Assistance:

- Preparing documentation, guiding on the Green Corridor release system, drafting applications

Direct Customs Representation (DCR) Consulting:

- Analyzing the business's readiness for DCR, conducting tailored training and consultation on DCR, and furnishing systematic guidance for DCR implementation.

Customs Cost Optimization Consulting:

- Developing cost-saving strategies, analyzing expenses, and creating customized cost-reduction plans

Benefits:

Customs Compliance:

- Achieving cost savings, gaining financial clarity, and ensuring compliance with customs regulations

Customs Clearance Efficiency:

- Facilitating expedited customs clearance, securing priority processing, and enhancing overall operational efficiency

Customs Representation:

- Reducing dependency on brokers, enabling rapid decision-making, and streamlining customs operations

Cost-Cutting Strategies:

- Realizing significant cost reductions and implementing tailored strategies that align with business objectives

Accurate Customs Operations:

- Enhancing accuracy in customs declarations, improving operational efficiency, and minimizing the risk of errors

Customs Compliance Services

Our Customs Compliance Services include:

Preparation of Internal Documents (Policies/Guidelines) on Customs Processes:

- Preparation of tailored policies/guidelines to streamline and standardize customs processes within companies

Customs Health-Check:

- Examination of different types of documents (customs declarations, payment records, invoices, contracts, waybills) to identify risks or potential saving sources
- Assessment of document from the perspective of incorrect classification, inaccurate payments, and/or improper customs procedures

Tailored Customs Training Sessions:

- Designing and delivering customized training on customs declaration processes and compliance

Benefits:

Operational Efficiency and Financial Accuracy:

- Improve staff understanding, coordination, and operational efficiency within the company
- Avoid delays with detailed timelines and ensure timely compliance in customs processes

Financial Compliance and Cost Savings:

- Cost savings through accurate documentation and procedures
- Prevent overpayment/underpayment, ensuring financial compliance and avoiding fines

Dispute Resolution Services

Our Customs Dispute Resolution Services include:

Pre-Court Assistance:

- Drafting detailed and persuasive complaint letters to higher customs authorities by ensuring that all relevant information and arguments are effectively presented
- Offering strategic guidance tailored to the specifics of each case

Court Documentation Support:

- Preparing all necessary court documents, including letters, complaints, petitions, and other legal paperwork
- Ensuring documentation complies with legal standards and accurately reflects the client's position

Legal Representation in Customs Disputes:

- Providing direct representation for clients in courts at all instances

Benefits:

Efficient Pre-Court Assistance:

- Resolving disputes without the need for court intervention, saving time and resources
- Benefiting from expert advice and well-prepared documentation that strengthens the client's position from the outset

Maximizing Court Success:

- Enhancing chances of a favorable outcome in court through thorough and accurate documentation
- Ensuring all submissions meet required standards and timelines, reducing the risk of procedural errors

Expert Legal Advocacy:

- Increasing the likelihood of a successful resolution with experienced attorneys effectively representing clients' interests in court
