"My experience started in 2012 as an intern when I was awarded with the 2012 PwC scholarship in my penultimate year at UWI CaveHill Campus. I then joined the firm in 2013 and have been exposed to clients across various industries which allowed me to expand my auditing and accounting knowledge to date. My experience at PwC has taught me how to manage time effectively as this is required for me to meet the demands of work and complete the ACCA professional qualification.

Having an active social group (Team* PwC) which organises various events throughout the year and provides the opportunity for staff to interact and mingle with each other in a social setting, is also a plus. We're able to join the committee and participate in the planning of events which helps us to be well rounded individuals within the firm."

"As the PwC scholarship recipient, I was able to intern at the firm and I can truly say, it was a great experience.

When I was offered a position, after completing my degree at the University of the West Indies, Cave Hill Campus, I had no doubt that PwC would be the best place to start my career.

PwC promotes a positive environment that is conducive to learning. As a person who has a passion for life-long learning, I consider this to be invaluable. Everyday, whether it's through my 'on the job' activities or through guidance or advice from my experienced colleagues, I am able to build on my knowledge of the intricacies of accounting.

PwC values its employees and provides the support and resources needed to facilitate career development. These include training, activities and opportunities for advancement.

Finally, it would be remiss of me if I didn't comment on the culture of PwC. There are various committees dedicated to planning social events and activities for the staff. PwC recognises the benefits of employee motivation and happiness and through these committees, both are maintained. This in turn creates a vibrant working environment that I am grateful to be a part of."
