APPENDIX

- A. ALTEX DAILY REPORT JANUARY 21, 2015**

SOUTHERN PACIFIC RESOURCE CORP. ET AL
SECOND SUPPLEMENT TO THE RECEIVER'S FIRST REPORT TO COURT
OCTOBER 25, 2016

1. PURPOSE OF THIS SUPPLEMENTAL REPORT

- 1.1 The purpose of this second supplement to the Receiver's First Report dated June 15, 2015 (the "**Second Supplemental Report**") is to provide the Court with additional information with respect to the ongoing dispute between Altex and the Company. Capitalized terms not defined herein have the meanings ascribed to them in the First Report.

2. ADDITIONAL INFORMATION WITH RESPECT TO ALTEX LIEN CLAIM

- 2.1 Following Altex's advice to the Receiver's counsel that Altex would be submitting additional evidence on the issue of the number of railcars at the Lynton Facility as of 12:01 a.m. Mountain Standard Time (the "**Appointment Time**") on January 21, 2015 (the "**Appointment Date**"), the Receiver made additional inquiries with the Company regarding the Company's records on this particular point.
- 2.2 As a result of these additional inquiries, the Company provided the Receiver with the spreadsheet attached hereto as Appendix "A", which is a copy of the Altex daily report received by the Company on January 21, 2016 (the "**January 21 Report**").
- 2.3 The Company advised the Receiver that a report similar to the January 21 Report was produced by the Altex operations group and sent to the Company on a daily basis. The Company further advised the Receiver that Altex and the Company consistently had disputes regarding the accuracy of the Altex daily reports. The Receiver has been unable to verify the accuracy of the January 21 Report against the Company's own records.
- 2.4 As indicated in the Supplement to the First Receiver's Report filed on September 19, 2016, the Company based its Appointment Date inventory calculations solely on the Lynton Facility tanks and all inventory that was loaded in railcars (58 railcars loaded with 550 bbls each for a total of 31,900 bbls) was deemed to be in transit.
- 2.5 The Company was not able to obtain accurate information as to the whereabouts of the loaded railcars as at the Appointment Time.
- 2.6 The supplementary affidavit of John Zahary filed on October 24, 2016 indicates that on the Appointment date there were 57 "Altex-Controlled cars" of which:
- 2.6.1 two were loaded with oil on site at the Lynton Facility; and
- 2.6.2 55 railcars in transit.

SOUTHERN PACIFIC RESOURCE CORP. ET AL
RECEIVER'S FIRST REPORT TO COURT
JUNE 15, 2015

- 2.7 The January 21 Report appears to indicate that on the Appointment Date there were three railcars at the Lynton Facility loaded with oil and an additional broken railcar at the Lynton Facility also loaded with oil.
- 2.8 The Receiver is still unable to determine the number of loaded railcars at the Lynton Facility as of the Appointment Time as the January 21 Report does not indicate the time at which it was prepared or the time at which the count of the railcars was conducted.

This report is respectfully submitted this 25th day of October, 2016.

PricewaterhouseCoopers Inc.
Court Appointed Receiver and Manager of
Southern Pacific Resource Corp. et al

Rick Osuna
Senior Vice President
