In order to ensure these challenges can be addressed, the number one concern has been how owners can manage their cash pressures to ride out the crisis. Our Business Restructuring Services (BRS) practice provides support to clients in time sensitive and critical scenarios, consistent with the challenges that businesses impacted by the pandemic are now experiencing.

We are working closely with organisations in the region, and globally, to help them to prepare and respond, by sharing our experience in working with companies, governments, regulators, NGOs and international organisations around the world to build their crisis response capabilities. Our specialist teams have helped them respond and emerge stronger.
