Handling complexities of disputes and litigation

Why contact us?

- Free initial confidential discussion
- Tailored approach to suit your needs
- Highly experienced and qualified professionals
- Unrivalled expertise across industries
- Specialists in a wide range of disputes and claims

International arbitration and local litigation

- Highly skilled Prague based International Arbitration Centre of Excellence utilising our dedicated local teams across CEE/CIS
- Performing initial case assessment
- Advising on the financial strategy and aspects of claims
- Assisting in negotiations or mediation
- Assessing and quantifying damages and acting as quantum experts, both in local and international arbitration and litigation
- Providing economic, industry or market analysis supporting questions of liability or the assessment of damages
- Providing expert testimony

Construction claims and disputes

- Substantial experience in the analysis of complex construction disputes
- Determination and analysis of the financial and schedule effects of certain causal events
- Providing expert advice in controversies regarding productivity impacts, equipment pricing, overhead evaluation, schedule evaluation and related pricing of delays, disruption impacts, acceleration pricing or terminated contract litigation

Insurance claims

- Providing cradle to grave claims handling and settlement on behalf of policyholders.

- Many years of experience in the insurance industry, covering a very broad range of risks including property, liability, business interruption, product recall, fidelity and other financial loss
- Drawing on the considerable skills of industry experts and specialists in other lines of service within PwC

Completion accounts advisory

- Support in pre- and post-completion advisory services (including completion accounts, earn outs and leakage reviews)
- Providing advice to sellers or purchasers during the drafting, negotiations and agreement of the completion accounts
- Expert determination services when agreement between seller and purchaser cannot be reached
- Analysis and investigation of the financial and valuation impact of breaches of warranty or joint venture terms, and completion accounts disputes

Competition economics

- Providing quick response including dawn raids, and advisory services such as antitrust risk assessments and dawn raid protocols
- Expert testimony on behalf of clients in stand alone actions with regard to allegations of excessive and discriminatory pricing and refusal to supply
- Expert quantum evidence on infringement of antitrust law

CEE/CIS Dispute Advisory Centre of Excellence

The PwC CEE/CIS Dispute Advisory Centre of Excellence is located in Prague, Czech Republic, and comprises forensic specialists with extensive experience in resolving complex matters in dispute.

Our strength comes from combining our forensic accounting, valuation, economics, tax and technology expertise with a global network of industry

specialists, enabling us to tailor our services to our clients' specific needs and to provide solutions to all complex matters in dispute.

The purpose of the Centre is to coordinate efforts of the teams across the CEE and CIS region, and globally, to ensure a consistent high quality of

dispute related services, ranging from preliminary advice to expert testimony – and ultimately to offer a “one stop shop” to meet our clients' needs. The Centre of Excellence, utilising its PwC Experience Centre, is also instrumental in innovating and developing technology and tools to support our clients in gathering, analysing and presenting evidence.
