Direct Taxation
General provisions under the tax law
Income liable to tax

Income tax is levied in each year on the total income of both resident and non-resident persons in Ghana.

In general, resident persons are taxed on their worldwide income while non-resident persons are taxed on income which has a source in Ghana. Income has a source in Ghana if it accrues in or is derived from Ghana.

Resident persons

An individual is generally resident for tax purposes if that individual is:

- present in Ghana for an aggregate period of 183 days or more in any 12-month period that commences or ends during the year;
- a citizen, including one who is temporarily absent from Ghana or has a permanent home outside Ghana; or

A partnership is resident for a year if any of the partners resided in Ghana at any time during that year.

A company is resident if it is incorporated under the Companies Act, 1963 (Act 179); or its management and control is exercised in Ghana at any time during the year.

A Ghanaian permanent establishment is treated as a resident company for the purposes of income taxation.

Persons not meeting the above criteria are considered to be non-resident persons.

Income sources

The chargeable income of a person for any calendar year is the total of that person’s income for the year from each business, employment, and investment less the total amount of deductions allowed to that person.
Taxation of individuals

Monthly tax rates

The table below indicates the new monthly income tax bands and rates generally applicable to the chargeable income of resident individuals:

<table>
<thead>
<tr>
<th>Year 2018</th>
<th>Chargeable income</th>
<th>Rate</th>
<th>Tax payable</th>
<th>Cumulative income</th>
<th>Cumulative tax</th>

<td>505.25</td>
</tr>
<tr>
<td>Exceeding</td>
<td>3,241</td>
<td>25</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The chargeable income of non-resident individuals is generally taxed at a flat rate of 20%.

Income from employment

An individual’s income from employment for a calendar year is the gains and profits of that individual from the employment for that year or a part of the year.

Personal relief

Personal reliefs ranging from GH¢100 to GH¢600 (per category) are available to individuals who meet the qualifying criteria. Individuals with disabilities are also entitled to 25% of their non-investment assessable income as personal relief.
Contributions to retirement benefit schemes

Statutory contributions towards retirement are categorised under a three-tiered scheme, as follows:

• **First tier** – A mandatory basic social security scheme.

• **Second tier** – A mandatory fully funded and privately managed occupational scheme.

• **Third tier** – A voluntary fully funded and privately managed provident fund and personal pension scheme.

The general mandatory monthly social security contribution rates are as follows:

• For employers: 13% of the employee’s salary; and

• For employees: 5.5% of employee’s salary.

The employer is responsible for remitting the total mandatory contributions within 14 days from the end of the month in which the deduction is expected to have been made. The contributions are remitted to the Social Security and National Insurance Trust (“SSNIT”) and an approved trustee as appropriate.

Exemption from tax is available for contributions made to the mandatory and voluntary schemes, respectively.

Interest incurred by individual on residential premises

Mortgage interest incurred by an individual on a loan employed in construction or acquisition of one residential premises may be claimed as a deduction against the income of that individual.

Non-cash benefits

Except where specifically exempt or otherwise stated, non-cash benefits received from employment are recognised at market value and taxed.

Accommodation facilities and vehicle-related benefits are specifically provided for and valued as follows:

<table>
<thead>
<tr>
<th>Facility provided</th>
<th>2018</th>

<tr>
<td>Vehicle only</td>
<td>5% up to GH¢250 per month</td>
</tr>
<tr>
<td>Fuel only</td>
<td>5% up to GH¢250 per month</td>
</tr>
</tbody>
</table>
**Taxation of loan benefits**

Interest on concessionary loans granted by an employer to an employee may be deemed as a taxable benefit.

**Non-taxable benefits/income**

The following benefits and income are generally not taxable:

a. A discharge or reimbursement of proper business costs incurred on behalf of the employer;

b. A discharge or reimbursement of the employee’s dental, medical, or health insurance expenses if the benefit is available to each full-time employee on equal terms;

c. Relocation costs for recruiting a non-resident individual to come and work in Ghana;

d. On-site accommodation provided to employees by an employer engaged in timber, mining, building, construction, farming business or petroleum operations;

e. Payments made to employees on a non-discriminatory basis and which, by reason of the size, type and frequency of the payments, are unreasonable or administratively impracticable for the employer to account for or allocate to an individual;

f. Redundancy pay;

g. Pension;

h. Capital sum paid to a person as compensation or gratuity for personal injury suffered by that person or because of the death of another person;

i. Interest paid to an individual by a resident financial institution or on bonds issued by the Government of Ghana; or

j. Interest and dividends paid or credited to a member of an approved unit trust or mutual fund scheme.
**Taxation of overtime and bonus**

Reduced income tax rates apply on the taxation of overtime and bonus payments, subject to meeting certain conditions.

**Payment to temporary and casual workers**

A payment to a temporary worker is generally taxed according to the graduated tax table. A payment to a casual worker is subject to 5% withholding tax.

**Pay-as-you-earn (PAYE)**

PAYE is a system of withholding income tax from payments made by an employer to employees.

Under the PAYE system, the employer deducts tax from employees taxable income at source and then remits the tax to the Ghana Revenue Authority (GRA) by the 15th day of the month following the month in which the deduction was or should have been made.

**Employer returns**

An employer must file an Employer’s Annual Tax Deduction Schedule with the GRA disclosing income paid to and tax withheld from each employee within four months after the end of the calendar year.

**Modified taxation**

Individuals whose only source of income in the year is from one business may opt to be taxed under the presumptive tax based on instalment or turnover subject to certain conditions.

**Year of assessment (individuals and partnerships)**

The year of assessment and accounting period for both individuals and partnerships is the calendar year.
Corporate Tax

Rates of tax

Income tax rates applicable to companies differ according to industry, location and type of business. The general rates applicable to entities which do not qualify for incentives include:

<table>
<thead>
<tr>
<th>Entity/ Activity</th>
<th>2018 (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Companies – General</td>
<td>25</td>
</tr>
<tr>
<td>Companies engaged in mining or upstream petroleum business</td>
<td>35</td>
</tr>
</tbody>
</table>

Year of assessment (companies)

The year of assessment is the calendar year.

Basis period

The accounting period of a company or trust is the accounting year of the company or trusts.

A company or a trust may choose a particular accounting year. Once chosen, an accounting year cannot be changed unless approval in writing is obtained from the Commissioner-General of the GRA.

Deductions allowed

Expenses that are wholly, exclusively and necessarily incurred in the production of income are allowed as a deduction for tax purposes.

Examples of allowable expenses are as follows:

- capital allowance for the year;
- bad debts (under certain conditions);
- tax losses brought forward for a specified number of years;
- repairs and improvements under certain conditions;
- losses incurred on the realisation of business or investment assets and liabilities;
- incentive for hiring recent graduates; and
- financial costs, under certain conditions.
Deductions not allowed

In general, expenses that are of a capital nature or not wholly, exclusively and necessarily incurred in the production of income are not allowed to be deducted. Examples of expenses that are not allowed as deductions include domestic and excluded expenditure.

Capital allowances

Capital allowances are granted to persons who own depreciable assets and use those assets to produce income from business.

Capital allowances granted to a person are to be taken in the year granted and cannot be deferred. Depreciable assets are grouped in the following classes for the purpose of capital allowances:

<table>
<thead>
<tr>
<th>Class</th>
<th>Assets included</th>
<th>Rate (%)</th>
<th>Basis</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Computers and data-handling equipment with peripheral devices</td>

<td>10</td>
<td>Straight-line</td>
</tr>
<tr>
<td>5</td>
<td>Intangible assets</td>
<td></td>
<td>Over useful life</td>
</tr>
</tbody>
</table>

An importer or manufacturer of excisable goods shall be granted 50% capital allowance on machinery and equipment imported for the purpose of affixing excise tax stamps.

Carry-over of tax losses

Tax losses can be carried forward for three (3) or five (5) years, depending on the industry/sector of operation.

Mineral royalties

Subject to any fiscal stability agreement, the mineral royalty rate is 5% of the total revenue earned from minerals (excluding petroleum and water) obtained from mining operations by a holder of a mining lease, restricted mining lease or small-scale mining license.

Ring-fencing of financial institutions, petroleum and mineral operations

The chargeable income of financial institutions and of, petroleum or mineral operations is calculated separately for each financial service, petroleum right or mineral operation.
Dividends

Generally, unless exempt from or subject to a tax treaty, dividends received from a resident company are subject to a final withholding tax of 8%.

National Fiscal Stabilisation Levy (NFSL)

The NFSL is a quarterly levy chargeable on the accounting profit before tax of some specified companies and institutions. The rate of this levy is 5% and it is applicable from the 2013 to 2019 calendar years.

The affected companies and institutions are:

1. Banks (excluding community and rural banks);
2. Non-bank financial institutions;
3. Insurance companies;
4. Telecommunications companies;
5. Breweries;
6. Inspection and valuation companies;
7. Companies providing mining support services;
8. Shipping lines; and
9. Maritime and airport terminal operators.

Free-zone developers/enterprises

Companies registered to operate as free-zone developers/enterprises enjoy a ten (10) year income tax holiday. Once the ten-year tax holiday has expired, the tax rate for the export of goods and services is 15%. Any other chargeable income is taxed at 25%.

Young entrepreneurs

The business income of young entrepreneurs operating in certain industries is exempt from tax for five (5) years. Depending on the location of the business, the tax rate is increased to up to 15% for the next five (5) years and then up to 25% thereafter. Such businesses could also carry forward tax losses for five (5) years.

Private universities

Private universities will be exempted from taxes if one hundred per cent (100%) of profit after tax is ploughed back into the business.

Taxation of gifts

A gift received by an entity in respect of business or an investment is included in the assessable income of the entity and taxed at the corporate tax rate.

Realisation of assets and liabilities

The gains or losses from the realisation of business or investment assets and liabilities are included in the assessable income of a company and taxed at the corporate tax rate.
Telecommunications and transportation business

Payments received by a person who carries on a business of transmitting or receiving messages by cable, radio, optical fibre or satellite or electronic communication from an apparatus located in Ghana, whether or not the messages originate, terminate or are used in Ghana, are liable to a withholding tax rate of 15%.

Similarly, payments received by a person who conducts a business of carrying passengers, cargo, mail or other movable assets that are embarked in Ghana (other than transhipment), including the rental of containers and related equipment that are incidental or supplementary to the transportation business, are liable to a withholding tax rate of 15%.

For a non-resident, the withholding tax is treated as a final tax.

Change in control

Change in the underlying ownership of an entity by more than 50%, which takes place at any time within a three-year period, triggers a number of consequences for the entity, such as:

- deemed disposal of the assets and liabilities of the entity at market value and reacquisition at the same value; and

- non-deductibility of financial costs, losses and bad debts incurred before the change.

Taxation of banking business

A person engaged in banking business is required to determine income or loss from the banking business separately from any other business activity and keep separate books of account for each business. Specific provision for a debt claim is deductible if the Commissioner-General is satisfied that the debt is bad.
Taxation of insurance companies – general business

The business of a general insurance company is taxed on premiums and proceeds derived and any reserve for unexpired risk deducted in the previous period, less:

- Proceeds incurred;
- Premium incurred under a contract of reinsurance; and
- Reserve for unexpired risk as at the end of the accounting year.

The corporate income tax rate is applied to the result.

Any other business activity of a person engaged in general insurance business is required to be tracked and taxed separately.

Withholding tax on premium payments

Premiums paid to a resident insurance company under an insurance contract are excluded from withholding tax.

Premiums paid to a non-resident person for insurance with a source in Ghana attract a 5% withholding tax.

Life insurance business

A person engaged in a life insurance business is required to determine income from the life insurance business separately from any other business activity.

The business of a life insurance company is taxed as follows:

- **Step one (1):** Exclude from income premiums and proceeds derived, and

- **Step two (2):** Do not deduct from income and do not include in the cost of an asset or liability premium and proceeds incurred.

The corporate income tax rate is applied to the result.

Taxation of retirement funds

Retirement contributions received by a retirement fund are exempt from tax. Retirement payments made by the retirement fund are not deductible.
Payments sourced from Ghana
The following are some of the payments considered as sourced from Ghana:

• Dividends paid by a tax-resident company;

• Interest paid by a resident person (including a Ghanaian permanent establishment) or paid in relation to a debt obligation secured by real property located in Ghana;

• Payments made in respect of natural resources located in Ghana;

• Rent paid for the use of, right to use, or forbearance from using an asset situated in Ghana;

• Royalties paid for the use of, right to use, or forbearance from using an asset in Ghana;

• Premiums and proceeds for general insurance paid to cover risk in Ghana;

• Payment in respect of acquiring a domestic asset or incurring a domestic liability or the realisation of that asset or liability;

• Payment made in respect of an activity conducted or forbearance from conducting an activity in Ghana;

• Payments for employment or service rendered in Ghana regardless of the place of payment or paid by the Government regardless of the place of performance; and

• Any other payments brought into or received in Ghana by a resident person.

Income attributable to a permanent establishment
The income and liability of a permanent establishment are calculated as if the permanent establishment is separate from its owner and arrangements between the two are recognised.

The income of a Ghanaian permanent establishment is subject to tax in the same manner as a resident company.

The foreign income of a foreign permanent establishment is exempt from tax in Ghana.

Branch profit tax
The net profit of a branch is deemed as repatriated profits and attracts a final withholding tax of 8%.

Relief from double taxation
A resident person (excluding a partnership) is allowed to claim a foreign tax credit for any income tax they pay to a foreign country in respect of a foreign-sourced income to the extent that the foreign-sourced income is included in the assessable income of that person.

Double tax treaties (DTTs)
DTTs provide relief from double taxation of income that accrues to residents of contracting states within either of the jurisdictions covered by the treaty. Ghana has DTTs with France, Germany, the United Kingdom, South Africa, Italy, Belgium, the Netherlands, Switzerland, Denmark, Czech*, Singapore* and Mauritius*, Morocco*, and Ireland*. 
**Treaty tax rates**

Tax rates applicable under the terms of these treaties are as follows:

A withholding agent is required to prepare and provide the withholdee with a withholding tax certificate within 30 days of the month of deduction.
**Exempt income**

The following types of income are exempt from taxes:

a. Gain from life insurance when the proceeds are paid by a resident insurer;

b. The income of a non-resident person from a business that operates ships or aircraft, if the Commissioner-General is satisfied that an equivalent exemption is granted by that person’s country of residence to persons resident in Ghana;

c. A dividend paid to a resident company by another resident company when the company receiving the dividend controls at least 25% of the voting power in the company paying the dividend. This exemption does not apply to certain special industries;

d. Interest or dividends on an investment paid or credited to a holder or member of an approved unit trust scheme or mutual fund;

e. Interest and gains realised by a non-resident person on bonds issued by the government of Ghana;

f. Gains from the realisation of GSE-listed securities and SEC-approved securities;

g. Income of an approved unit trust or mutual fund; and

h. Income of an approved real estate investment trust.

**Anti-avoidance schemes – income splitting**

Income splitting includes transfers of income or assets (including money) to an associate that result in the transferee receiving or enjoying the income from that property in order to reduce the combined tax liability of the transferor and transferee. Income splitting is not permitted under the laws of Ghana.

**Transfer pricing**

Ghana’s Transfer Pricing Regulations (TPRs) require that transactions conducted between persons who are in a controlled relationship (e.g. parentsubsidiary, associates, relatives, etc.) be done at arm’s length. The TPRs also cover transactions between an employer and employee.

A transaction is conducted at arm’s length if the terms of the transaction do not differ from the terms of a comparable transaction between independent persons.

The acceptable methods under the TPRs are similar to those in the guidance on transfer pricing by the Organisation for Economic Co-operation and Development (OECD) guidance on transfer pricing.

At the end of the year, taxpayers who conducted business with other persons with whom they have controlled relationships are required to:

- Complete and file annual transfer pricing returns; and
- Should have supporting documentation or information on transactions with connected persons.
**Thin capitalisation**
A company is deemed as being thinly capitalised if the ratio of its debt to equity is greater than 3:1. Thin capitalisation does not apply to financial institutions.

**Administrative procedures – furnishing of returns of income**
A return of income should be filed with the GRA within four months of the end of each accounting period.

Subject to approval by the Commissioner-General, multiple extensions may be granted to file a return at a later date other than the compliance due date. Extensions granted shall not exceed 60 days from the date on which the return was originally due to be filed.

**Cases where a return is not required**
Unless the Commissioner-General requests so in writing, a return shall not be filed by:

- a non-resident person who has no tax payable for the year; or
- a resident individual who has no tax payable on chargeable income for the year.

**Statement of estimated tax payable**
A person who is required to directly pay tax in instalments is required to file an estimate of tax payable for the year with the Commissioner-General by the date for payment of the first tax instalment.

**Payment of tax**
Tax instalment payments are generally due by the last day of the third, sixth, ninth and twelfth months of the basis period where the accounting period is a twelve-month period.

Withholding tax is due 15 days after the end of each calendar month that a tax is withheld.

In any other case, tax is due on the date stated in a notice of assessment.

**Offences and penalties**
Penalties and interests apply for non-compliance, and, in some cases, criminal sanctions exist for the income tax offences.

**Tax amnesty**
In broad terms, the Commissioner-General will not assess or recover taxes, penalties and interest in respect of previous years up to and including the 2017 year of assessment under the tax amnesty programme.

The tax amnesty applies to both registered (but non-compliant) and unregistered taxpayers who take steps to file outstanding tax returns, make relevant disclosures, and settle outstanding tax liabilities by 30 September 2018.

Application for tax amnesty should be submitted to the Commissioner-General by 31 August 2018 for approval.

The amnesty does not apply to persons who are under tax audit or investigation in respect of undisclosed income or persons who have already been assessed to tax by the GRA.
Indirect Taxation
Scope

Except for exempt goods and services, Value Added Tax (“VAT”) and the National Health Insurance Levy (“NHIL”) are charged on the following:

a. the supply of goods and services made in Ghana; and

b. imports of goods and services.

VAT is charged on any supply of goods and services that is a taxable supply and is made by a taxable person in the course of his taxable activity.

A taxable activity means an activity, whether or not for a pecuniary profit, carried on by a person in Ghana or partly in Ghana that involves the supply of goods or services to another person for consideration.

The liability for VAT is in the case of:

1. a taxable supply, by the taxable person making the supply;

2. imported goods, by the importer;

3. an imported service, by the receiver of the service under certain conditions; and

4. the supply of telecommunication services or electronic commerce for use in Ghana, by the non-resident person making the supply or its agent.

Except for supplies considered to be zero-rated and at a flat rate of 3% (for a wholesaler or a retailer of goods), the standard rate of VAT is 15% and the NHIL is 2.5%.

The VAT and NHIL are calculated on the value of the taxable supply of the goods, services or imports.

A taxable person is a person who is registrable for VAT or who has been registered by the Commissioner-General and issued with a certificate of registration. The effective date of registration as a taxable person is the date specified on the certificate of registration.

Standard (invoice credit) scheme

The general mandatory registration turnover threshold for taxable supplies over a twelve-month period is GH¢200,000.

VAT flat rate scheme

There is a flat rate scheme (3% VAT) that is applicable to taxable supplies made by wholesalers and retailers in the course of their taxable activity. The scheme does not cover manufacturers and service providers and does not cover the supply of any form of power, heat, refrigeration or ventilation. All other VAT provisions apply to the flat rate scheme, except for the right to deduct input tax.

Group registration

Group registration is possible but subject to approval of a written application by members of the proposed group of businesses.

Tax representative

A taxpayer may appoint a person as his representative in dealings with the GRA, subject to conditions approved by the Commissioner-General.
Exempt supplies

Some supplies that are specifically exempt are listed below:

1. Agricultural inputs;
2. Water, excluding bottled or packaged water;
3. Electricity within specified limits;
4. Textbooks, approved supplementary readers, newspapers, atlases, charts, maps and music;
5. Education services, laboratory and library equipment;
6. Medical services and medical supplies;
7. Certain pharmaceuticals, active ingredients and selected inputs;
8. Domestic transportation;
9. Machinery and parts of machinery;
10. Crude oil and hydrocarbon products;
11. Accommodation in a dwelling, or land for agricultural use and civil engineering public works;
12. Goods specifically designed for the disabled; and
13. Financial services.

The full list and detailed descriptions of exempt items are provided in the relevant VAT legislation.

VAT and NHIL incurred

A VAT-registered business which principally makes taxable supplies may recover up to 100% of the VAT and NHIL incurred on goods or services purchased for the business, subject to meeting certain conditions.

There is a time limit of six (6) months in which to claim VAT and NHIL incurred on goods and services procured.

Withholding of VAT

The Commissioner-General may appoint a person as a VAT-withholding agent. This agent will be required to withhold from payments for standard-rated supplies, 7% of the taxable output values and issue a Withholding VAT Credit Certificate at the time of payment.

Returns

Registered businesses are required to submit monthly returns showing:

- VAT and NHIL charged on supplies;
- VAT and NHIL incurred on the purchase of goods and services; and
- the net VAT and NHIL payable or credited.

VAT and NHIL returns and payment (if any) are ordinarily due by the last working day of the month after the month to which the return relates.

VAT and NHIL on imported goods are paid when the associated duties are paid. The return and payment of VAT and NHIL on imported services are due within 21 days of the month following the month in which the services were imported.

VAT withholding return is filed by the 15th day of the following month to which the return relates and tax withheld is paid by the due date.

Businesses are usually not entitled to VAT and NHIL refunds. Refund claims must satisfy relevant conditions.
Penalties

There is a comprehensive system of penalties and interest payable for:

- the incorrect declaration of VAT and NHIL;
- the late submission of returns;
- late payments; and
- the infringements of the provisions of the VAT laws.

Communication service tax

Communication service tax (CST) is payable by users of electronic communication services (ECS) provided by a person permitted or authorised under the Electronic Communications Act, 2008 (Act 775) and its Regulations.

Users of ECS include individuals and corporate entities (as well as the ECS providers themselves).

The rate of CST is 6% and this is chargeable on ECS* and recharges made by ECS providers. Charges for ECS include those made for monetary and non-monetary consideration (e.g. promotions and bonuses). CST is also applicable to interconnection services.

ECS providers in Ghana are ordinarily required to collect tax and account to the GRA on a monthly basis.

The due date for filing this monthly return is the last working day of the month following the month to which the tax return and payment relate, unless the Commissioner-General directs otherwise.

If a CST return is not filed by the due date without justification, a penalty of GH¢500 applies, with an additional penalty of GH¢10 for each day the return is not submitted.

If an extension approval has not been granted by the Commissioner-General of the GRA, interest at 125% of the statutory rate is imposed on CST that is not remitted to the GRA by the due date.

*ECS includes a service providing electronic communications, a closed user group service, a private ECS, a public ECS, a radio communication service and a value-added service.

Special petroleum tax

Persons licenced to operate as oil marketing companies are required to charge a special petroleum tax at specific rates per litre or kilogramme on the following petroleum products:

- Petrol;
- Diesel;
- Liquefied petroleum gas;
- Natural petroleum gas; and
- Kerosene.

The tax is administered by the GRA and should be remitted by the last working day of the month following the month of the transaction.

Customs and excise taxes

Ghana enacted the Common External Tariff (CET) classification system as the binding custom duty regime in 2016.

The CET sets out the various duties and administrative charges applicable to imports, exports and excise duties.
Import duties
Typically, import duties range between 0% and 35%, depending on the nature (description) of the item imported, as specified in the CET.

Import duties are generally levied on the cost, insurance and freight (CIF) value of the item imported.

VAT and NHIL of 17.5% are also applied to the CIF (used for customs purposes) and import duty amounts.

Special import levy
A special import levy of 2% applies on the importation of certain goods. The levy applies in addition to the import duties and mandatory statutory or administrative charges.

This levy is expected to expire by December 2019.

African Union import levy
An African Union (AU) import levy of 0.2% applies on eligible imports of goods from non-AU member states into AU member states for consumption within the member state. The AU levy is mainly to provide a reliable and predictable source of funding for the AU and some of its specialised agencies.

Import duty exemptions
There are special import duty exemptions for some privileged persons, organisations and institutions (e.g. diplomatic missions) as well as for persons belonging to certain specific industries (such as mining, oil and gas, and free-zone entities).

Administrative charges
There are statutory administrative charges ranging between 2.5% and 3.45% of the value of goods imported. These charges may apply regardless of any import duty exemptions.

Export duties
Exports do not usually attract any duties.

Excise duties
Excise duties generally range between 0% and 175% of the ex-factory price and apply to products such as beer, spirits, tobacco products, etc.

Excise tax stamp
Excise tax stamps are to be affixed to specific excisable goods which are manufactured in the country or imported into the country.

They apply to tobacco products, alcoholic and non-alcoholic carbonated beverages, bottled water and other goods specified by the minister responsible for finance, before sale or before entry into the market.

Environmental tax
An environmental excise tax of 10% applies to plastic and plastic products listed.

Airport tax
Airport tax is levied on local and foreign travels. The tax is GH¢5 for local travels and US$60–US$200 for foreign travels.
The PwC Business School is a non-traditional learning institution which focuses on delivering relevant learning and development solutions based on our deep knowledge and experience within our core areas of expertise.

At PwC, our position as subject matter experts in Regulatory issues, Corporate Governance, Accounting, Auditing, Tax, Finance and other industry specific issues, strategically place us as key resources for personal and capacity development.

The PwC Business School aims to increase the net worth of an organisation and its people by providing an ideal environment for adult learning and education. Our training sessions are delivered using both practical experience and illustrative case studies in a technologically driven manner.
PwC Ghana (www.pwc.com/gh) provides industry-focused assurance, tax and advisory services to build public trust and enhance value for its clients and their stakeholders. Over 236 000 people in 158 countries across our network share their thinking, experience and solutions to develop fresh perspectives and practical advice.
