

Corporate Sustainability Presentation FY24

Presentation by **Vivian Tsamadou**
September 2024

PwC Greece annual CS presentation

Corporate Sustainability

This presentation is about our Corporate Sustainability (CS) strategy and actions in FY24, from 1 July 2023 to 30 June 2024.

In certain areas it also gives data on the past 3 years.

PwC Greece CS results are reported at the end of the FY in the platform UL360 of PwC's global network. We follow the global KPIs, standards and guidelines.

We have aligned our key topics with the United Nations (UN) Sustainable Development Goals (SDGs).

Global

CS

strategic

framework

Resilient Communities

We work together to build Resilient Communities that can respond to their local needs now and in the future.

We help equip them with digital skills, build their resilience to the physical impacts of climate change and engage in initiatives that enable people to access opportunities more equitably.

Resilient Communities: Strategic pillars

1 New world. New skills

Passing our knowledge

We aim to upskill and reskill the workforce to navigate the changing world and secure decent jobs.

2 Climate

Sustainable planet

We aim to empower communities to reduce the climate impact, mitigate or adapt to the physical risks of the changing climate, and build resilience for the future.

3 Equitable access to opportunity

Inclusion & Diversity

We aim to support organisations and activities that help people access opportunities more equitably, particularly in underserved areas.

Results: Startups & NGOs reached

The number of beneficiaries is the result of the annual programmes reach.

Results: Beneficiaries reached. Individuals

The number of beneficiaries is the result of the annual programmes reach.

2

Climate

Climate

We aim to empower communities to reduce their climate impact, mitigate or adapt to the physical risks of changing climate, and build resilience for the future.

The engagements can be pro bono, upskilling, hands on volunteering and cash contributions to empower NGOs addressing climate.

This is separate from but complementary to our net zero commitment.

Climate engagements

Pro bono & Discounted engagements

- Hellenic Recovery Recycling Corporation (HERRCO)
- EPD Renewables
- Society for the Environment & Cultural Heritage

Cash contributions

- Humanity Greece: Thessaly
- Anima: Wildfires protection to animals
- Arcturos: Biodiversity
- Animals near our offices
- Wecook
- Amilos
- Polygreen
- All for Blue
- iSeas

Climate activities

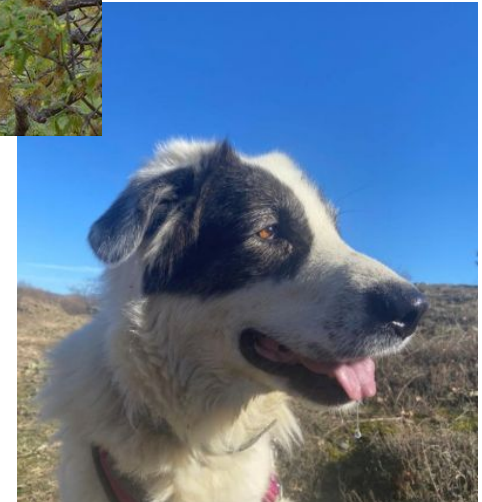

- Beach cleaning near Thessaloniki
- All for Blue: Maritime life and clean seas awareness presentation
- Polygreen recycling training to all staff and Partners
- Sustainable cooking workshops in Athens and Thessaloniki
- Kids day: Sustainable cooking and recycling workshops in World Environment Day

Biodiversity

Arcturos support

- Awareness internal event

Circular economy pilot project

Paper

Plastic

Aluminium

Coffee capsules

In FY24 we run a pilot circular economy/ recycling project in our Athens offices in collaboration with Polygreen. We trained all our staff to proper recycling. We are assessing recycling practices while we are gradually moving in to our new building in FY25.

Glass | Batteries | Light bulbs | Mobile devices

3

Equitable access to
opportunities

Equitable access to opportunities

We aim to support organizations and activities that help people access opportunities more equitably, particularly in underserved areas.

The engagements can be pro bono, upskilling, hands on volunteering and cash contributions to empower NGOs addressing equitable access to opportunities.

This falls into the framework of our Inclusion and Diversity initiatives.

Equitable access engagements
