45+ Countries

Industrial Products and Services Data Sheet

Many Industrial Products & Services (IPS) organisations have publicly declared their commitment to Diversity, Equity & Inclusion (DE&I) for some time now, but how have they translated strategy into execution and what impact is it having on the employee experience? PwC's DE&I Benchmarking Survey finds out.

Organisations are making strides around diversity

IPS organisations are making strides helping translate DE&I strategy into action. DE&I is a stated value or priority area for 86% of organisations, 31% of respondents still feel diversity is a barrier to employee progression.

DE&I is a stated value or priority

Diversity is a barrier to progression at my organisation

However, few DE&I programmes reach full maturity

Only 7% of surveyed IPS organisations' DE&I programmes reach the highest level of maturity when assessed against the four dimensions of PwC's DE&I maturity model.

1. Understanding the Facts of Today (UFT): Initiating a continuous data-driven process for understanding the facts of what's happening in the organisation today

2. Building an Inspirational Strategy (BIS): Creating a business-focused vision and strategy for DE&I that reflects the reality of today and the real potential of tomorrow

3. Developing Leadership Engagement (DLE): Engaging leadership around an inspirational DE&I strategy by articulating the business case and establishing supportive governance

4. Creating Sustainable Movement (CSM): Executing the DE&I strategy across all elements of the business

Degree of programme maturity¹

DE&I programme goals

Nearly half of IPS organisations surveyed (47%) view their DE&I programme primarily as a way to attract and retain talent, but far fewer are connecting DE&I directly to achieving business results, or enhancing the external reputation.

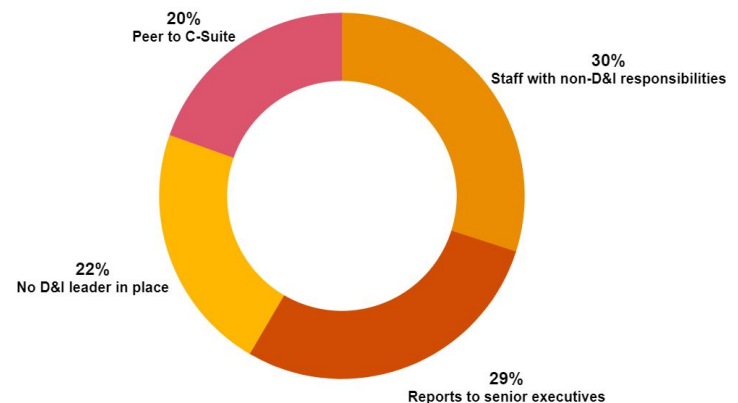

The primary objective of DE&I is to...

Programme oversight

While DE&I survey data indicates that having a DE&I leader that is a peer to the C-Suite can be a differentiator between organisations where diversity is not considered a barrier to progression and those where it is, only 20% of organisations surveyed have adopted this programme structure.

The DE&I programme leader is...

Source: PwC: Global DE&I Data, July 2022 based on ~6,000 responses across 52+ countries and 26+ industries

¹Percentages do not add up to 100% as some respondents opted out of questions which did not allow for them to be fully assessed against certain dimensions of the maturity model.

Accountability for DE&I results

Tasking leaders with specific DE&I goals is key to driving results. Despite this, just under a third of IPS organisations surveyed have adopted this practice (32%) and fewer measure progress towards the achievement of these goals.

How does your organisation drive accountability for DE&I results?

Leaders are tasked with specific DE&I goals	32%
Leaders' progress toward meeting their DE&I goals is measured	24%
DE&I goals influence performance evaluation and compensation outcomes for leaders	17%
DE&I goals influence performance evaluation and compensation outcomes for all employees	17%
None of the above	26%

Training programmes in place

Half of IPS organisations surveyed (50%) provide training on non-discrimination and regulatory compliance and roughly the same proportion are also expanding training to focus on overcoming unconscious bias and embracing differences among employees in the workplace.

Training programmes focus on...

Role of affinity networks/ resource groups

While the majority (74%) of IPS organisations surveyed have affinity groups, they are mostly used to foster networks and execute programmes, rather than to inform decision-making and drive business priorities.

Affinity groups at my organisation...

Leveraging data

Driving sustainable change requires effective monitoring efforts. Most organisations track employee demographics (e.g., gender), but significantly fewer measure discrepancies in compensation, performance, or promotions based on these attributes.

My organisation gathers & analyses the following types of data...

Take the DE&I Benchmarking Survey

Analyze the maturity of your organisation's DE&I programme, and see how your organisation compares to others in your region and industry.
