

Digital Learning Services

Minimum system requirements for the PwC Digital Learning Platform and running e-learning content

To use the PwC Digital Learning Platform and run the e-learning content, you need the technical parameters listed below. Accessing the system on a company computer may have additional settings that restrict the portal or content.

Operating system:

- Microsoft Windows (XP and later versions)
- Linux (Ubuntu, Debian, Red Hat, CentOS)
- MacOS (Mavericks and later versions)

Browser:

- Microsoft Edge for Windows 10
- Internet Explorer (IE) 11 and greater
- Latest stable browser version of Apple Safari
- Latest stable browser version of Mozilla Firefox
- Latest stable browser version of Google Chrome

Allowing cookies and pop-up windows is required.

For a 32-bit operating system, the browser should be a 32-bit version.

For a 64-bit operating system, the browser should also be a 64-bit version.

Acrobat Reader:

8.0 or higher version is required to be able to read the PDF documents.

Firewall settings:

Some parts of the course are available in SWF format, which contains images (JPEG, PNG), multimedia (MP3, MP4), and text files (XML, XSD). The firewall and browser should not block access to these types of files.

Other:

A broadband internet connection is required (recommended: minimum 1-2 Mbps).

A display resolution of 1024x768 with 32-bit colour is also needed.
