## ***Our global insights for 2016***

*Dear colleagues,*

*PwC recently launched the 19th Annual Global CEO Survey at the opening of the World Economic Forum Annual Meeting in Davos, Switzerland. The report, “Redefining business success in a changing world” analyses the views of 1,400 CEOs from 83 countries including Indonesia, on the global economy and business growth in the next 12 months. Over-regulation, geopolitical uncertainty and exchange rate volatility are some of the CEOs’ key concerns for 2016.*

*In line with the Global CEO Survey, our economists have also revealed their predictions for 2016. You can read them in our latest Global Economy Watch, including the prediction that the G7 will grow at its fastest rate since 2010.*

*We hope that you will find our insights useful for your business in 2016.*

*Have a good day!*
