We have been in Indonesia since 1971 with 1,500 professionals, including more than 50 partners/technical advisors who are experienced in delivering assurance, tax and advisory services to both Indonesian and international companies. Our resources are equipped with in-depth knowledge of the local business environment and global business trends.

We understand that each company has its own culture and strategies to perform business. On the other hand, doing business in Indonesia certainly brings a number of challenges to the companies.
