However, several differences noted are as follows:</p> <ul style="list-style-type: none"> • PSAK 1 defines that IFAS consists of the Statements of Financial Accounting Standards, their interpretations and financial reporting rules issued by capital market authorities. IAS 1 does not include the latter. • Under PSAK 1, where compliance with the PSAK would be so misleading that it would conflict with the objectives of the financial statements, an entity is not allowed to depart from the relevant standards; however it may disclose the fact that: (a) the application of those standards would be misleading and (b) an alternative reporting basis should be applied to achieve fair presentation of the financial statements. IAS 1, under similar circumstances, allows for departure from the prevailing standards. • Under IAS 1, an entity may use titles for the statements other than those used in this Standard. For example, an entity may use the title ‘statement of comprehensive income’ instead of ‘statement of profit or loss and other comprehensive income’. • PSAK 1 states that management are responsible for preparation and presentation of financial statement.

A restructuring transaction which occurred within under common control entities is considered to have no economic substance, despite the transfer of any legal form between the entities.

PSAK 44: “Akuntansi Aktivitas Pengembangan Real Estat” / Accounting for Real Estate Development

PSAK 44 regulates specific provisions with regard to revenue recognition of different types of real estate development, cost components, allowance allocation and disclosures.

PSAK 45: “Pelaporan Keuangan Entitas Nirlaba” / Financial Reporting for Non-Profit Organisations

The objective of this standard is to specify the financial reporting for non-profit organizations.

PSAK 70: “Akuntansi Aset dan Liabilitas Pengampunan Pajak” / Accounting for Tax Amnesty Assets and Liabilities

The objective of this standard is to provide specific accounting treatment related to the application of the Tax Amnesty Law. PSAK 70 is also applicable by non-publicly accountable entities that chose to adopt the Standar Akuntansi Keuangan Entitas Tanpa Akuntabilitas Publik (SAK ETAP). The standard becomes effective from the date of enactment of the Tax Amnesty Law.

ISAK 25: “Hak Atas Tanah” / *Land Rights*

ISAK 25 provides that land that is held under HGB, HGU and Hak Pakai rights is not amortised unless there is an indication that the renewal or extension of the rights is not probable or cannot be obtained. Costs to obtain those rights for the first time are capitalised as fixed assets but subsequent costs to extend or renew the rights are recognised as intangible assets and then amortised based on paragraph 11 of ISAK 25.

ISAK 25 is still effective until the equivalent PSAK 73 will be adopted in 1 January 2020.

ISAK 31: “Interpretasi atas Ruang Lingkup PSAK 13: Properti Investasi” / *Interpretation on the scope of PSAK 13: Investment Property*

ISAK 32: “Definisi dan Hierarki Standar Akuntansi Keuangan” / *Definition and Hierarchy of Indonesian Financial Accounting Standards*

The definition of IFAS under PSAK 1 and PSAK 25 includes those pronouncements issued by capital market regulators applicable for entities under its supervision. In such inconsistencies, an entity is required to follow the requirements of PSAK/ISAK to be able to make an explicit and unreserved statement of compliance with IFAS.
