

In association with

Introducing our Flying Start Degree Programme

Join PwC in Jersey for a four-year school-leaver programme, combining academic study with a career kickstart in finance.

We have collaborated with University College Jersey to develop this programme, where students will spend two terms a year on campus, with one term being spent on a placement with PwC.

The programme will put you on track to becoming an ICAEW Chartered Accountant - you'll complete 80% of your ICAEW exams whilst studying for the degree, complete a large proportion of the work experience required to qualify as a Chartered Accountant, and be less than a year away from the full qualification once you graduate.

Take the opportunity to register your interest:

Follow these simple steps:

1

Visit our Flying Start website page at pwc.com/jg/flyingstart or scan the QR code, and click 'apply now' to fill in your details.

2

Congratulations! You're now registered. Please note that participation is subject to final approval.

3

Wait to receive an email notifying you of the next steps in entering the Flying Start Degree Programme.

What can you gain?

- **A Flying Start:** Within a five year period, not only will you qualify as a Chartered Accountant, you'll also have Jersey's first finance degree under your belt. These qualifications would normally take you six years to achieve if you were to complete a standard degree programme at university and then study for the ICAEW qualification afterwards.
- **Study on-island:** Your degree will be accredited by the University of Plymouth and taught at University College Jersey on campus at Highlands.
- **Flexibility of a university timetable:** You'll have a more gradual entry into full-time employment, whilst enjoying the summer holidays each year.
- **Earn while you learn:** We offer a competitive financial package to support your time on the programme. You'll be paid for your second term placement at PwC each year, with the option to work with us during university summer holidays.
- **Job at the end of the programme:** You'll have the opportunity to join us as a Senior Associate, (subject to passing your exams and placements) at a firm with great benefits and an excellent support network and global reach.

First starting date:
September 2024

Valuing Difference. Driving Inclusion.
