

E-Invoicing: is your company affected?

edition №18-2016

Many companies became liable to issue electronic invoices on 11 January 2016, as a result of measures taken by the government following Kazakhstan's accession to the WTO in December 2015. The trigger was lowering of customs duty on approximately 1500 products. Failure to issue e-invoices is subject to harsh penalties.

The first step in response is for all companies to review urgently the list of 1500 products to determine if they are effected.

We can assist you to do the review, efficiently and effectively.
