## In brief

The schedule of tax inspections for the second half of 2022 year was published on May 23, 2022 and available at:

<https://www.gov.kz/memleket/entities/prokuror/documents/details/308428?lang=ru>

We would like to note that in comparison with the schedule for the first half of 2022, the number of taxpayers subject to the inspection has increased from 44 to 812 companies. Thus, the tax authorities are returning to the pre-pandemic approach for the number of inspections. Moreover, we believe that the actual number of inspections in the country is significant considering unscheduled and thematic inspections.

Thus, we would like to remind you about the main stages of the tax inspection processes, which must be followed by the tax authorities taking into account the provisions of the Administrative Procedural Code of the Republic of Kazakhstan.

At the same time, provisions of the Administrative Procedural and Process-Related Code of the Republic of Kazakhstan provide for certain procedures related to the tax inspections, such as hearing or filing objections on preliminary decisions of the tax authorities.
