By resolution of the Government, a new Special Economic Zone (SEZ) "Korkyt Ata" has been established in the Kyzylorda Region. The SEZ will cover an area of 550 hectares near the international transport corridor "Western Europe - Western China."

The purpose of the SEZ is to accelerate the development of modern, competitive, and high-performance industries. A special legal regime will be introduced, offering tax and customs incentives for SEZ participants.

If you are interested in more detailed information about registration in this SEZ and obtaining tax incentives, we will be glad to assist you and provide all the necessary consultation.

If you are interested in additional  
information, please contact us.
