

# Case study: Our approach

## GM management - all the information you need at your fingertips

***Our myMobility on-line platform provides real-time status reports of our services and access to secondee records***

- myMobility shows the status of every service delivered globally, and enables you to track these at any time.
- myMobility provides direct access to the MOVE Guides TMC.
- It will be used to hold secondee data and documentation securely so you will be able to access all documents, advice and reports produced at any time.
- Our GM management team distributes secondee service evaluations globally, monitors and reviews the results and contacts dissatisfied secondees directly.

***The myMobility home page***

For more information on myMobility and how it will support you and your secondees, please see Appendix 1.

### ***Better data***

Real time access to your secondee population – knowing who they are and where they are, to contact in any situation, including an emergency.

### ***Increased compliance***

Assurance your secondees are provided with the information and support they need to be compliant. Enabling them to focus on their role.

### ***Better information***

Access to all documentation in relation to your secondees including secondment letters, cost projections, visa and work permit documentation

### ***Total tax spend and collect***

Insight about the true cost of your international mobility programmes by combining payroll data with relocation and tax data.

### ***Insights and updates***

We will schedule quarterly calls with MOVE Guides and PwC in key territories which you may wish to join, or have us feed back changes that may impact you, as well as secondee service updates.
