Everything you ever wanted to know about Latvian tax and business law

pwc

MindLink.lv (www.mindlink.lv) is the first e-consultant in the Baltic States to have become over the last fifteen years a reliable assistant in day-to-day activities to directors, financial analysts, tax experts and accountants in Latvian and international companies, offering comments on topical tax and business issues **in Latvian, English and Russian.**

This portal has been created by PricewaterhouseCoopers (PwC) experts to provide clients with information on key issues of taxation, legislation and business in Latvia that is accessible around the clock and easy to find.

The experts share our practical experience of dealing with client issues and seeking solutions to help taxpayers in various industries organise their transactions effectively.

Entrepreneurs appreciate this opportunity to save time and costs and are grateful for the chance to comment on burning issues, participate in discussions and ask questions.

MindLink.lv service incorporates:

- ✓ A weekly Flash News service containing details of and commentary on current tax and business issues in Latvia;
- ✓ A series of updated databases providing basic factual information on all taxes in Latvia;
- ✓ Transfer Pricing advice;
- ✓ An opportunity for investors in the Latvian market to access PwC Latvia's tax practice staff and ask them questions online;
- ✓ Invitations to comment on the legislative process through lobbying and other group activities, where issues are common to many businesses; and
- ✓ Useful publications, surveys and research material of your interest.

You will find out that you no longer need to conduct detailed research into legislation yourself as PwC experts have already done it all for you.
