of a lifetime!*

# About our Graduate Programme

## Deals

Working in the largest integrated Deals business in the region will expose you to leading clients, delivering specialised services across the deals spectrum.

From market entry through to mergers and acquisitions, capital projects, restructuring advisory and forensic examination and disputes, Middle East Deals will provide you with the skills to strategise, challenge and analyse all aspects of a situation and maximise value for our clients who may be involved in a transaction or addressing a crisis.

The 2 year development program is aimed to equip you with the skills and knowledge essential for your day-to-day life as a Consultant in Deals. The program includes a range of learning opportunities and real life engagements that will provide you with broad experience across the services provided in Deals.

## Tax

Learn everything that the region's first Tax practice can teach you. Your knowledge will help high-profile businesses, entrepreneurs and private clients understand complex rules and make informed decisions with significant impacts. You'll also help government's ensure the efficient operation of tax systems and use your insight to solve long-term problems.

You'll be part of a business that's committed to proactively engaging with the tax policy debate and focused on leading views and new ideas.

Our people need to be agile and ready to build strong relationships, networks and leadership skills. Our expertise covers all areas of taxation, providing clients with distinctively constructive assistance and solutions by understanding their individual needs and assisting them to achieve the most suitable strategies and solutions.

## Consulting

In Consulting, you will have the opportunity to work closely with the best across industry and professional functional advisory services.

We focus on helping solve client problems by offering both strategic and operational deep industry expertise. We pride ourselves on building long-lasting relationships with companies and organisations, always ensuring that we are able to bring the best insights and solutions to help them tackle whatever critical issues they may face. Our Consulting practice currently focuses on several core sectors including Consumer and Industrial Products & Services, Energy, Utilities & Mining, Financial Services, Government, Health Industries, Finance Function, People and Organisations and Technology.

## Assurance

You'll be part of the team that gets to grips with every aspect of clients' activities, understanding their business to identify where our high-quality audit can add insight and value. Work with our prestigious client list and you'll develop the business skills, knowledge and relationships you need to do well in a career that's about so much more than numbers.

You'll go beyond the obvious and develop real insights into a client's markets, technology, people and management, as well as its finances. Your intelligence, courage and ability to embrace change are key attributes we look for. Joining our team, you'll need to be able to think independently and confidently about sharing your point of view. We're constantly drawing on the breadth of our experiences and relationships to provide our clients with a tailored and risk-focused approach to the audits we do for them. The bulk of our work in Assurance falls into three main business units: Core Assurance, Risk Assurance and Capital Markets & Accounting Advisory Services (CMAAS).

## How you'll start

No matter which location you join, you'll be part of a cohort of more than 300 fresh graduates joining PwC Middle East's regional induction programme in September 2018 in the United Arab Emirates. In your first week, you'll get the opportunity to refine your soft skills, meet the leadership, network with your peers whilst becoming familiar with PwC as a business; its brand, its values, its work and its people. This is followed by weeks of technical training tailored to your business area: Assurance, Consulting, Deals or Tax.

You are now a PwC professional, solving important problems.

## What you'll gain

In addition to your challenging & exciting work, you'll get technical & soft skills training, coaching & mentoring and mobility. You will also have the opportunity to study towards a professional qualification relevant to your business area.

## What we look for

Graduates of 2017/2018 holding a Bachelor's degree (or Master's) in any subject with strong academic background.
