Programme

Time	Session
8:00am	Registration
8:45am	Welcome address by Lim Huck Khiam, Northern Region Leader, PwC Malaysia
9:00am	Unpacking the key tax proposals from Budget 2027 What are the key measures announced in Budget 2027, and how could they affect you or your business? PwC tax professionals will analyse the proposals and share practical perspectives on what they may mean for individuals, investors, corporate groups and tax functions.
10:45am	Coffee / tea networking
11:00am	Futures Thinking: Anticipating and adapting in the AI world As AI continues to reshape how organisations operate, this session covers Futures Thinking, the GenAI landscape, and practical use cases to drive productivity. Participants will have the opportunity to take part in a live demonstration of selected AI use cases, providing a practical view of how GenAI can be applied in tax and finance contexts.
1:00pm	Lunch
2:00pm	MPERS and MFRS 18: Turning challenges into opportunities How can businesses move beyond compliance and create value from upcoming reporting changes? Join our subject matter experts as they share perspectives on the key transition on revised MPERS and the introduction of MFRS 18, highlighting the potential impact and the actions companies can take today to prepare, reduce implementation risks and strengthen financial reporting. This session also highlights opportunities to streamline reporting processes and strengthen financial insights.
3:00pm	When cybersecurity risk becomes business risk Could your organisation withstand a major cyber incident? This session explores the real-world impact of cyber breaches, including financial losses, operational disruptions and reputational damages. Learn from recent incidents, understand the evolving cyber security risks associated with cloud adoption, and discover how a strong cyber security strategy can help businesses anticipate threats, respond effectively and protect long-term value.
4:00pm	Coffee / tea networking
4:15pm	Dispute Resolution: Managing tax controversy in a changing landscape As tax authorities emphasise transparency and data-driven enforcement, businesses must manage tax disputes proactively. This session examines key dispute trends across corporate tax, e-Invoicing, stamp duty, and indirect tax, concluding with a panel Q&A on common challenges and strategies for engaging authorities.
5:45pm	End
