# Malaysian Tax Booklet

PP 13148/07/2013 (032730)

This publication is a quick reference guide outlining Malaysian tax information which is based on taxation laws and current practices. This booklet incorporates in *coloured italics* the 2023 Malaysian Budget proposals based on the Budget 2023 announcement on 24 February 2023 and the Finance Bill 2023. These proposals will not become law until their enactment and may be amended in the course of their passage through Parliament. Please refer to our online version at <https://www.pwc.com/my/mtb> for any subsequent updates.

This booklet is intended to provide a general guide to the subject matter and should not be regarded as a basis for ascertaining the liability to tax in specific circumstances. No responsibility for loss to any person acting or refraining from acting as a result of any material in this publication can be accepted by PricewaterhouseCoopers. Readers should not act on the basis of this publication without seeking professional advice.

## ***Scope of taxation***

Income tax in Malaysia is imposed on income accruing in or derived from Malaysia. For residents, tax is also imposed on income derived from outside Malaysia and received in Malaysia. However, resident companies carrying on the business of banking, insurance, sea or air transport (BISA) are assessable on income from wherever derived (world income scope).

Subject to conditions, the following foreign-sourced income received in Malaysia (other than BISA) from 1 January 2022 to 31 December 2026 qualify for tax exemption:

- Dividend income received by resident companies, limited liability partnerships (LLP), and individuals (in respect of dividend income received through a partnership business in Malaysia)
- All classes of income received by resident individuals (excluding a source of income from a partnership business in Malaysia, which is received in Malaysia from outside Malaysia)

Income attributable to a Labuan business activity of a Labuan entity including the branch or subsidiary of a Malaysian bank in Labuan is subject to tax under the Labuan Business Activity Tax Act 1990. A preferential tax rate of 3% will apply to the Labuan entity on its net profits from Labuan business activities if it meets the substantial activity requirements, otherwise it will be subject to a tax rate of 24% on its net profits. A Labuan entity can make an irrevocable election to be taxed under the Income Tax Act 1967 (ITA 1967) in respect of its Labuan business activity.

## ***Classes of income***

Income tax is chargeable on the following classes of income:

- a) gains or profits from a business;
- b) gains or profits from an employment;
- c) dividends, interest or discounts;
- d) rents, royalties or premium;
- e) pensions, annuities or other periodical payments not falling under any of the foregoing classes;
- f) gains or profits not falling under any of the foregoing classes.

## ***Basis of assessment***

Income is assessed on a current year basis. The year of assessment (YA) is the year coinciding with the calendar year, for example, the YA 2023 is the year ending 31 December 2023. The basis period for a company, co-operative or trust body is normally the financial year (FY) ending in that particular YA. For example, the basis period for the YA 2023 for a company which closes its accounts on 30 June 2023 is the FY ending 30 June 2023. All income of a person other than a company, LLP, co-operative society or trust body, are assessed on a calendar year basis.

Malaysia adopts a self-assessment system which means that the responsibility to determine the correct tax liability lies with the taxpayer.

## ***Returns & assessments***

- Taxpayers are required to submit their income tax returns to the Inland Revenue Board (IRB) within the prescribed time frame. Refer to the “*Important filing dates*” section for further information.
- Companies are required to prepare the income tax returns based on the financial statements as required by Companies Act 2016. Similarly, with effect from (w.e.f.) YA 2022, LLPs, trust bodies and co-operative societies are required to prepare financial statements in accordance with any written law.
- A tax return submitted by the prescribed due date is deemed to be an assessment made on the taxpayer on the date of submission (deemed assessment).
- The IRB is allowed to issue an additional assessment, if it thinks that the original assessment is not sufficient, within 5 years (or 7 years for transfer pricing issues) from the end of that particular YA.
- The above time frame is not applicable in situations of fraud, wilful default or negligence.

## ***Appeals***

- Where a taxpayer is aggrieved by an assessment made by the IRB, he may submit an appeal. If the taxpayer and the IRB cannot come to an agreement, the appeal may be escalated to the Special Commissioners of Income Tax within a certain period.

## INCOME TAX

- Appeals against assessments raised by the IRB can be made within 30 days after the date the notice of assessment has been served.
- Taxpayers can also appeal against its own deemed assessment. However, the scope of appeal is restricted only to disagreement (but conceded in its return) with the IRB's known stand and rules prevailing at the time when the return was submitted. Examples of such known stand and rules include:
  - Public rulings
  - Private rulings or advance rulings
  - Guidelines issued by the IRB
  - Decided tax cases
  - Other written evidence

### ***Relief for error or mistake, or inaccurate tax returns***

Application for relief can be made to the Director General of Inland Revenue (DGIR) for tax returns which are incorrect due to the following reasons:

Reasons	Time frame
Error or mistake made by the taxpayer.	Overpayment of tax for a YA - within 5 years from the end of that YA. No tax liability for a YA - within 6 months from the date the return is furnished.
Exemption, relief, remission, allowance or deduction granted for that YA under the ITA 1967 or any other written law published in the Gazette after the YA in which the return is furnished.	Within 5 years after the end of the year the exemption, relief, remission, allowance or deduction is published in the Gazette.
Approval for exemption, relief, remission, allowance or deduction is granted after the YA in which the return is furnished.	Within 5 years after the end of the year the exemption, relief, remission, allowance or deduction is approved.
Tax deduction not claimed in respect of expenditure incurred that is subject to withholding tax (WHT) which is not due to be paid on the day the return is furnished.	Within 1 year after the end of the year the payment of WHT is made.

Attempt to leave the country without payment of tax	RM200 to RM20,000 or imprisonment or both [on conviction]
Late payment of tax liability under an assessment for a YA	10% of tax payable
Late payment of tax instalment	10% of outstanding tax instalment amount
Underestimation of tax estimate for a YA by more than 30% of actual tax payable	10% of the difference exceeding 30% of the actual tax payable
Failure to furnish Country-by-Country Report (CbCR)	RM20,000 to RM100,000 or imprisonment or both [on conviction]
Incorrect return or information for Mutual Administrative Assistance Arrangement and for CbCR	RM20,000 to RM100,000 or imprisonment or both [on conviction]
Failure to comply with IRB's request for taxpayer's bank account information for purposes of garnishee order	RM200 to RM20,000 or imprisonment or both [on conviction]

## ***Public rulings and advance rulings***

- To facilitate compliance with the law, the DGIR is empowered to issue public rulings and advance rulings.
- Public rulings are voluntarily issued by the IRB whereas advance rulings are issued upon application made by a taxpayer.
- Tax treatment prescribed in the public rulings that are adopted by a taxpayer shall be binding on the DGIR.
- Tax treatments prescribed by the DGIR in its advance rulings are binding on both the DGIR and taxpayer except for the following circumstances:
  - a) the arrangement is materially different from the arrangement stated in the advance ruling;
  - b) there was material omission or misrepresentation in, or in connection with the application of the ruling;
  - c) the assumptions made by DGIR when issuing the advance ruling are subsequently proved to be incorrect; or
  - d) the taxpayer fails to satisfy any of the conditions stipulated by the DGIR.

## ***Tax Compliance Certificate (TCC)***

TCC will be a prerequisite for taxpayers to tender for Government projects w.e.f. 1 January 2023.

## ***Tax Identification Number (TIN)***

The TIN will be used for purposes of income tax, real property gains tax and stamp duty. The following persons will be required to have a TIN:

- Any person who is assessable and chargeable to tax;
- Any person who is required to furnish an income tax return; or
- Any person who is a citizen and aged 18 years old and above.

# PERSONAL INCOME TAX

## ***Tax residence status of individuals***

An individual is regarded as tax resident if he meets any of the following conditions, i.e. if he is:

- in Malaysia for at least 182 days in a calendar year;
- in Malaysia for a period of less than 182 days during the year but that period is linked to a period of physical presence of 182 or more consecutive days in the following or preceding year. Temporary absences from Malaysia due to the following reasons are counted as part of the consecutive days, provided that the individual is in Malaysia before and after each temporary absence:
  - business trips
  - treatment for ill-health
  - social visits not exceeding 14 days
- in Malaysia for 90 days or more during the year and, in any 3 of the 4 immediately preceding years, he was in Malaysia for at least 90 days or was resident in Malaysia; or

Type of income	Rate (%)
Other income	10

Note: Where the recipient is resident in a country which has a double tax treaty with Malaysia, the tax rates for the specific sources of income may be reduced.

\* Interest paid to a non-resident by a bank or a finance company in Malaysia is exempt from tax.

### **Collection of tax**

An estimate of a company's tax payable for a YA must be furnished to the Director General of Inland Revenue (DGIR) not later than 30 days before the beginning of the basis period, except for the following:

- A newly established company with paid-up capital of RM2.5 million and less is exempted from this requirement for 2 to 3 YAs, beginning from the YA in which the company commences operation, subject to certain conditions.
- A company commencing operations in a YA is not required to furnish an estimate of tax payable or make instalment payments if the basis period for the YA in which the company commences operations is less than 6 months.

The estimate of tax payable is generally payable in 12 equal monthly instalments, beginning from the second month of the company's basis period.

The balance of tax payable by a company based on the return submitted is due to be paid by the due date for submission of the return.

In general, tax of a non-resident company on all income other than income from a business source is collected by means of withholding tax. Under the law, withholding tax is payable within one month of crediting or paying the non-resident company.

### **Profit distribution**

Tax on a company's profits is a final tax and dividends paid, credited or distributed are tax exempt in the hands of shareholders.

### **Losses**

Business losses can be set off against income from all sources in the current year. Any unutilised losses can be carried forward for a maximum period of 10 consecutive YAs to be utilised against income from any business source.

Unutilised losses accumulated as at YA 2018 can be utilised for 10 consecutive YAs and any balance will be disregarded in YA 2029.

For a dormant company, the unutilised losses will be disregarded if there is a substantial change in shareholders.

### ***Group relief***

Under the group relief provision, a company may surrender a maximum of 70% of its adjusted loss for a YA to one or more related companies, for the first 3 consecutive YAs after having completed its first 12-month basis period from commencement of its operations. Conditions to be met by the claimant and surrendering companies include the following:

- Resident and incorporated in Malaysia.
- Paid-up capital of ordinary shares exceeding RM2.5 million at the beginning of the basis period.
- Both companies have the same (12-month) accounting period.
- Both companies are “related companies” as defined in the law, and must be “related” throughout the relevant basis period as well as the 12 months preceding that basis period.

Companies currently enjoying certain incentives such as pioneer status (PS), investment tax allowance (ITA), reinvestment allowance, etc. or which have unutilised ITA or unabsorbed pioneer losses upon the expiry of its ITA or PS incentives under the Promotion of Investments Act 1986, are not eligible for group relief.

### ***Tax deductions***

Generally, tax deduction is allowed for all outgoings and expenses wholly and exclusively incurred in the production of gross income.

Certain expenses are specifically disallowed, for example:

- Domestic, private or capital expenditure.
- Lease rentals for passenger cars exceeding RM50,000 or RM100,000 per car, the latter amount being applicable to vehicles costing RM150,000 or less which have not been used prior to the rental.
- Employer’s contributions to unapproved pension, provident or saving schemes.

- Employer's contributions to approved schemes in excess of 19% of employee's remuneration.
- Non-approved donations.
- 50% of entertainment expenses with certain exceptions.
- Employee's leave passages with certain exceptions.
- Interest, royalty, contract payment, technical fee, rental of movable property, payment to a non-resident public entertainer or other payments made to non-residents which are subject to Malaysian withholding tax but where the withholding tax was not paid.
- Payments made to a Labuan entity\* – the percentage of non-deduction is 25% for interest and lease rental, and 97% for other payments.

\* regardless of whether it meets the substantial activity requirements

### ***Transfer pricing***

#### **1. Legislation**

- Malaysia's transfer pricing legislation adopts the arm's length principle espoused in the OECD Transfer Pricing Guidelines.
- Under the Income Tax Act 1967 (ITA 1967), the DGIR is empowered to make adjustments on controlled transactions of goods, services or financial assistance based on the arm's length principle or to disregard a structure which is commercially irrational (w.e.f. 1 January 2021).
- The definition of 'control' is common shareholding of 20% of shareholding or more; and
  - a) the operations of the affiliate depend on the proprietary rights of the shareholder of 20%, or its affiliate; or
  - b) the shareholder / affiliate is able to influence decisions relating to the business activities of the company, including the receipt of services, and the pricing of the acquisition of such services; or
  - c) one or more of the directors or members of the board of directors of a person are appointed by the shareholder / affiliate.
- The following rules and guidelines have been issued by the Inland Revenue Board (IRB):
  - Income Tax (Transfer Pricing) Rules 2012 ("TP Rules");
  - Malaysian Transfer Pricing Guidelines 2012 ("TP Guidelines");

## CORPORATE INCOME TAX

- Income Tax (Advance Pricing Arrangement) Rules 2012; and
- Advance Pricing Arrangement Guidelines 2012 (“APA Guidelines”).
- The arm’s length requirement is included in the Labuan Business Activity Tax Act 1990 (LBATA). The same definition of control under the ITA 1967 (including the expanded definition which captures entities with common shareholding of 20% or more where certain additional conditions are met) is applied in LBATA.

### 2. Documentation requirements

- Taxpayers with intercompany transactions are required to prepare transfer pricing documentation on a contemporaneous basis.
- Documentation should be in place by the time of filing of the tax return but does not need to be submitted with the tax return.
- The TP Guidelines set out Malaysian documentation requirements, and apply to controlled transactions where at least one of the parties to the transaction is chargeable to tax in Malaysia. Documentation requirements are broadly consistent with requirements under Action 13 of the Base Erosion and Profit Shifting (“BEPS”) Plan.
  - Master file: Provides an overview of the multinational group’s business, value drivers, intangibles, financing arrangements, and supply chain. The master file is only required if (i) the Group is headquartered in Malaysia and has consolidated revenue exceeding RM3 billion; and / or (ii) the Group is required to prepare a master file in any other location.
  - Local file: Local transfer pricing documentation which substantiates the arm’s length nature of intercompany transactions.

### 3. Thresholds

- There is no de minimis rule in Malaysian transfer pricing legislation.
- The TP Guidelines allows taxpayers to opt to prepare limited documentation if they fall below the following thresholds\*:
  - Gross income exceeding RM25 million, and total amount of related party transactions exceeding RM15 million.
  - For financial assistance, the threshold is RM50 million.

\* Not applicable to permanent establishments (PE)

- Companies which are not assessable to tax due to tax incentives or losses are encouraged to prepare documentation if their related party transactions exceed the thresholds outlined above.
- The TP Guidelines need not apply to controlled transactions between companies who are both assessable and chargeable to tax in Malaysia, and where it can be proven that any adjustments made under the TP Guidelines will not alter the total tax payable by both companies.

#### 4. Penalties for non-compliance

- Taxpayers are required to submit documentation within 14 days of the IRB's request. The IRB treats failure to submit documentation within the timeframe as non-compliance with the contemporaneous requirement under the TP Rules. Refer to "*Offences & penalties*" in the Income Tax chapter.
- A fine ranging from RM20,000 to RM100,000 per YA, or imprisonment not exceeding six months, or both, may apply to taxpayers who fail to furnish contemporaneous transfer pricing documentation.
- For audits which commenced prior to 1 January 2021, taxpayers without transfer pricing documentation could also be subject to up to 50% of penalties upon additional tax payable arising from transfer pricing adjustments.
- Taxpayers not having comprehensive documentation will be subject to 30% of penalties on additional tax payable. This assessment is subjective.
- A surcharge up to 5% of the transfer pricing adjustment made by the IRB would apply to transfer pricing adjustments made on audits which commenced on or after 1 January 2021. The surcharge and penalties are mutually exclusive.

#### 5. Aligning transfer pricing outcomes with value creation

- The Malaysian Guidelines reflect guidance under the updated OECD Guidelines and BEPS Action Points 8 to 10, which requires transfer pricing outcomes to be aligned to value creation within a multinational enterprise group's value chain:
  - Actual business transactions (conduct) should be identified, and the transfer pricing arrangements should not be based on contractual arrangements which do not reflect reality

- Contractual allocation of risks should be respected only when supported by actual decision-making
- Capital without functionality will generate no more than a risk free return
- The IRB may disregard transactions when exceptional circumstances of commercial irrationality occur

### 6. High risk transactions

- Transactions relating to intangibles – In line with the revised OECD Guidelines, the TP Guidelines outlines the following necessary steps in assessing intangibles transactions:
  - Identifying the intangible
  - Analysing contractual terms
  - Functional analysis (identifying economically significant functions related to the development, enhancement, maintenance, protection and exploitation (DEMPE) of the intangibles, and demonstrating control over these functions)
- Commodity transactions – The TP Guidelines acknowledge that the comparable uncontrolled price method is generally the most appropriate method for intercompany commodity transactions. The TP Guidelines lay out comparability factors relevant to commodity transactions, and the importance of providing supporting documentation.

### ***Country-by-Country Reporting (CbCR)***

The Income Tax (Country-by-Country Reporting) Rules 2016 and Labuan Business Activity Tax (Country-by-Country Reporting) Regulations (collectively “CbC Rules”) require Malaysian multinational corporation (MNC) groups with total consolidated group revenues of RM3 billion and above in the financial year preceding the reporting financial year to prepare and submit CbC Reports to IRB no later than 12 months after the close of each financial year.

Malaysian entities of foreign MNC groups will generally not be required to prepare and file CbC Reports as the obligation to file will be with the ultimate holding company in the jurisdiction it is tax resident in. However, the Malaysian entities of the foreign MNC group will have an obligation to inform / notify the IRB if it is the holding company or has been appointed as the surrogate holding company. If it is neither the holding company nor surrogate

holding company, the Malaysian entities must notify the IRB of the identity and tax residence of the entity responsible for preparing the CbC Report.

Failure to comply with the CbC Rules may result in a fine of RM20,000 to RM100,000 or imprisonment of up to 6 months or both. In the case of Labuan entities, non-compliance with the CbC Rules may result in a fine of up to RM1 million or imprisonment of up to 2 years or both.

### ***Advance pricing arrangement (APA)***

- Taxpayers with cross border transactions may apply for an APA under the ITA 1967, subject to the following requirements:
  - the taxpayer is a company assessable and chargeable to tax under the ITA 1967 (also includes PEs);
  - has a turnover value exceeding RM100 million; and
  - the value of the proposed covered transaction is
    - for sales, exceeds 50% of turnover;
    - for purchases, exceeds 50% of total purchases; or
    - for other transactions, the total value exceeds RM25 million.
- All covered transactions must relate to income that is chargeable and not income which is exempted.
- In cases involving financial assistance, a threshold of RM50 million applies.

### ***Earnings stripping rules (ESR)***

The ESR applies on interest expense (of more than RM500,000 in a basis period) in connection with or on any financial assistance granted in controlled transactions (as defined), whether directly or indirectly, to a person. The ESR guideline narrows the application of the prescribed rules to cross-border controlled transactions.

The prescribed rules specify that the maximum amount of interest deduction allowed is 20% of the Tax-EBITDA (Earnings Before Income Tax, Depreciation and Amortisation) from each of the sources of income consisting of a business. The interest expenses in excess of the maximum deduction allowed may be carried forward indefinitely to be deducted against future income. In the case of a company, the carry forward of the above-mentioned

## CORPORATE INCOME TAX

interest expenses would not be allowed if there is a substantial change in the company's shareholders.

## CAPITAL ALLOWANCES

Accounting depreciation charged on buildings, plant and machinery, furniture, office equipment and motor vehicles is not deductible for tax purposes. The law however provides for corresponding deductions on expenditure incurred on certain assets used for the purpose of the business in the form of industrial building allowance, capital allowances, accelerated capital allowance and agriculture allowance.

### ***Industrial building allowance (IBA)***

- Qualifying expenditure (QE)

QE for purposes of IBA is the cost of construction of buildings or structures which are used as industrial buildings or certain special buildings. In the case of a purchased building, the QE is the purchase price.

- Buildings that qualify for IBA

An industrial building or a special building includes a building used as / for:

- a factory
- warehouse\*
- a dock, wharf, jetty
- working a farm, mine
- airport\*
- a hotel registered with the Ministry of Tourism\*
- supplying water or electricity, or telecommunication facilities
- approved research\*
- a private hospital, maternity home and nursing home which is licensed under the law\*
- an old folks' care centre approved by the Social Welfare Department
- childcare centre provided by an employer\*
- a school or an educational institution approved by the Minister of Education / Higher Education / other relevant authority\*
- industrial, technical or vocational training approved by the Minister of Finance (MoF)\*
- motor racing circuit approved by the MoF\*
- service project in relation to transportation, communications, utilities or any other sub-sector approved by the MoF\*

## CAPITAL ALLOWANCES

- living accommodation for individual employed by manufacturing, hotel or tourism business or an approved service project\*
- For items marked (\*), where not more than one-tenth of the floor area of the whole building is used for letting of property, the whole building qualifies as an industrial building. Where more than one-tenth of the floor area of the whole building is used for letting of property, only the remaining part of the building which is not used for the purpose of letting of property qualifies as an industrial building.
- The MoF may prescribe a building used for the purpose of a person's business as an industrial building.
- General rates of allowance for industrial building, whether constructed or purchased:
  - Initial allowance (IA): 10%
  - Annual allowance (AA): 3%

### ***Capital allowances***

- Qualifying expenditure (QE)

QE includes:

- cost of assets used in a business, such as plant and machinery, office equipment, furniture and fittings, motor vehicles, etc. "Plant" is defined to mean an apparatus used by a person for carrying on his business but does not include a building, an intangible asset, or any asset used and that functions as a place within which a business is carried on.  
*W.e.f. YA 2023, the exclusion of intangible assets will be removed from the definition. However, the MoF may prescribe any asset to be excluded from the definition of plant.*
- the cost of construction and installation of plant and machinery (subject to payment of withholding tax where the installation is carried out by a non-resident)
- expenditure on fish ponds, animal pens, chicken houses, cages and other structures used for agricultural or pastoral pursuits
- where an asset is acquired on a hire purchase term, the QE for a particular basis period is based on the amount of capital repayment made during that basis period

## CAPITAL ALLOWANCES

- General rates of capital allowance

	IA (%)	AA (%)
Heavy machinery	20	20
General plant and machinery	20	14
Furniture and fixtures	20	10
Office equipment	20	10
Motor vehicles	20	20*
ICT equipment, computer software including customised software	20	20

\* QE for non-commercial vehicle is restricted to the maximum amount below:

	Maximum QE (RM)
New vehicles purchased where the total cost is RM150,000 or less	100,000
Vehicles other than the above	50,000

- Expenditure on an asset with a lifespan of not more than 2 years is allowed on a replacement basis.

### ***Accelerated capital allowances***

Examples of assets which qualify for accelerated capital allowance rates:

	IA (%)	AA (%)
<b>Industrial buildings</b>		
Public roads and ancillary structures where expenditure is recoverable through toll collection	10	6
Buildings for the provision of childcare facilities / centre	-	10
Buildings used as living accommodation for employees by a person engaged in a manufacturing, hotel or tourism business or approved service project	-	10
Buildings used as a school or an educational institution approved by the Minister of Education or any relevant authority or for the purposes of industrial, technical or vocational training approved by the Minister	-	10
Building used as a warehouse for storage of goods for export or for storage of imported goods to be processed and distributed or re-exported	-	10

## CAPITAL ALLOWANCES

	IA (%)	AA (%)
Buildings constructed under an agreement with the government on a build-lease-transfer basis, approved by the MoF	10	6
Buildings constructed for the Government or statutory body under Private Financing Initiatives approved by the Prime Minister's Department under build-lease-maintain-transfer basis where no consideration has been paid by the Government or statutory body	10	6
<b>Plant and machinery (P&amp;M)</b>

Moulds used in the production of industrialised building system component	40	20
Machinery and equipment including ICT equipment except motor vehicle incurred from 1 March 2020 until 31 December 2021	20	40

Small-value assets not exceeding RM2,000 each are eligible for 100% capital allowances. The total capital allowances of such assets are capped at RM20,000 except for Small & Medium Enterprises (as defined).

### ***Automation capital allowances for the manufacturing sector***

<b>Accelerated capital allowances (ACA)</b>	IA (%)	AA (%)
High labour intensive industries (rubber products, plastics, wood, furniture and textiles) - first RM4 million QE relating to automation equipment incurred from YA 2015 to YA 2023 (Applications received by 31.12.2023)	20	80
Other industries - first RM2 million QE relating to automation equipment incurred from YA 2015 to YA 2023 (Applications received by 31.12.2023)	20	80

## CAPITAL ALLOWANCES

Income tax exemption equivalent to the above ACA, to be set-off against 70% of statutory income, is given. Therefore, the total allowances would amount to 200% of the capital expenditure.

*The above is enhanced as follows:*

- i. Scope of automation to include the adaptation of Industry 4.0 elements;*
- ii. Scope of tax incentive is expanded to include agriculture sector; and*
- iii. Capital expenditure threshold for high labour intensive industries, other industries and agriculture be aligned and increased up to RM10 million (Applications received from 1 January 2023 to 31 December 2027)*

### **Disposals**

Balancing adjustments (allowance / charge) will arise on the disposal of assets on which capital allowances have been claimed. Generally, the balancing adjustment is the difference between the tax written down value and the disposal proceeds. The balancing charge is restricted to the amount of allowances previously claimed.

Capital allowances which have been previously granted shall be clawed back if the asset is sold within 2 years from the date of purchase, except by reason of death of the owner or other reasons the Director General of Inland Revenue thinks appropriate.

### **Controlled transfers**

No balancing adjustments will be made where assets are transferred between persons / companies under common control. In such cases, the actual consideration for the transfer of the asset is disregarded and the disposer / acquirer is deemed to have disposed of / acquired the asset at the tax written down value.

### **Temporary disuse**

Where an asset is temporarily disused for business purposes, it is still entitled for capital allowances provided the asset was in use immediately prior to the disuse and during the period of disuse it is constantly maintained in readiness to be brought back into use for business purposes.

If the disuse ceases to be regarded as temporary, the asset will be deemed to have ceased to be used and any allowances granted during the period of temporary disuse will be clawed back.

## CAPITAL ALLOWANCES

### ***Assets held for sale (AHFS)***

If an asset is classified as AHFS in accordance with generally accepted accounting principles during the basis period, such asset is deemed to have been disposed of.

Special treatment has been prescribed which may vary the disposal date and / or disposal value of such assets from the normal rules.

### ***Unabsorbed capital allowances***

Any unabsorbed capital allowances can be carried forward indefinitely to be utilised against income from the same business source. For a dormant company, the unutilised capital allowances will be disregarded if there is a substantial change in shareholders.

### ***Agriculture allowances***

<b>Qualifying agriculture expenditure</b>	<b>Rates (%)</b>
Clearing and preparation of land	50
Planting (but not replanting) of crops on cleared land	50
Construction of a road or bridge on a farm	50
Building used as living accommodation or for welfare of a person employed in working a farm	20
Any other building	10

## TAX INCENTIVES

Malaysia offers a wide range of tax incentives ranging from tax exemptions, allowances to enhanced tax deductions. Generally, tax incentives are available for tax resident companies.

Pioneer Status (PS) is an incentive in the form of tax exemption, which is granted to companies participating in promoted activities or producing promoted products, for a period of 5 or 10 years.

The alternative to the PS incentive is usually investment tax allowance (ITA). ITA is an incentive granted based on the capital expenditure incurred on industrial buildings, plant and machinery used for the purpose of promoted activities or the production of promoted products. This incentive is generally given for a period of 5 or 10 years.

PS and ITA are mutually exclusive. Where income is exempted under the PS incentive, tax exempt dividends may be paid out of the exempted income. Unutilised ITA can be carried forward until fully utilised. However unutilised PS losses can only be carried forward for a maximum period of 7 consecutive YAs after the end of the pioneer period. For unutilised PS losses accumulated as at YA 2018, where the incentive has already expired, these losses can be carried forward for another 7 YAs until YA 2025.

Malaysia has undertaken a review of its tax incentives and excluded royalties and intellectual property income from its tax incentives in line with the requirements of BEPS Action 5 (Counter Harmful Tax Practices More Effectively, Taking into Account Transparency and Substance).

An Approved Incentive Scheme is proposed for high technology activity in the manufacturing and services sectors and other activities which benefit the Malaysian economy. Under the scheme, a concessionary tax rate of not more than 20% is to be prescribed by the Minister of Finance.

In the following pages, we provide a summary of the main tax incentives for the relevant industry sectors.

# TAXES ON CAPITAL GAINS

## 1. Real Property Gains Tax

### Scope

Every person whether or not resident is chargeable to Real Property Gains Tax (RPGT) on gains arising from disposal of real property, including shares in a real property company (RPC). Real property is defined as any land situated in Malaysia and any interest, option or other right in or over such land.

RPC is essentially a controlled company where its total tangible assets consist of 75% or more in real property and / or shares in another RPC. A controlled company is essentially a company owned by not more than 50 members and controlled by not more than 5 persons.

Disposal is generally triggered upon transfer of ownership from one person to another whether by way of sale, conveyance, assignment, settlement, alienation, etc.

### RPGT rates

Disposal	RPGT rates		
	Companies / Trustee <sup>1</sup> / Society <sup>3</sup> (%)	Individuals <sup>#</sup> (%)	Individuals <sup>2</sup> , Executor of deceased estate <sup>2</sup> , Companies <sup>2</sup> (%)
Within 3 years	30	30	30
In the 4 <sup>th</sup> year	20	20	30
In the 5 <sup>th</sup> year	15	15	30
In the 6 <sup>th</sup> and subsequent years	10	0	10

<sup>#</sup> Citizens and permanent residents

1 - Companies incorporated in Malaysia or a trustee of a trust

2 - Non-citizens and non-permanent residents, and companies not incorporated in Malaysia

3 - Society registered under the Societies Act 1966 and body of persons registered under any written law in Malaysia

### Returns and assessment

For each disposal, both the disposer and acquirer are required to submit RPGT returns respectively within 60 days from the date of disposal. The Director General of Inland Revenue (DGIR) shall raise an assessment based on the RPGT returns.

### ***Date of disposal***

The date of disposal is taken as the date of the written agreement of the disposal. In the absence of a written agreement, the date shall be taken as the earlier of full payment of the purchase consideration or the date when all things which are necessary for the transfer of ownership of the real property under any written law has been done. Where the disposal is subject to approval from the Government or State Government, the date of disposal is the date of such approval or if the approval is conditional, the date when the last condition is satisfied.

### ***Withholding by acquirer***

Where the purchase consideration consists wholly or partly of cash, the acquirer is required to withhold the lower of the entire cash consideration or:

- 7% of the total acquisition price where the disposer is not a citizen and not a permanent resident, or an executor of estate of a deceased person who is not a citizen and not a permanent resident, or a company not incorporated in Malaysia
- 5% of the total acquisition price where the disposer is a company incorporated in Malaysia, or a trustee of a trust, or a body of person registered under any written law in Malaysia and the disposal is made within 3 years of acquisition
- 3% of the total acquisition price in all other cases.

That amount, whether or not withheld by the acquirer, is to be remitted to the DGIR within 60 days from the date of disposal. The amount remitted to the DGIR is to be applied against the RPGT payable by the disposer.

### ***Payment by disposer***

The disposer is required to settle the balance of RPGT payable within 30 days from the date of the notice of assessment.

### ***Exemptions***

The following are some examples of exemptions from RPGT:

- an amount of RM10,000 or 10% of the chargeable gain, whichever is greater, accruing to an individual.

## TAXES ON CAPITAL GAINS

- gain accruing to an individual who is a citizen or a permanent resident in respect of the disposal of one private residence.
- disposal of assets in connection with securitisation of assets.
- disposal of assets to Real Estate Investment Trusts and Property Trust Funds.

The following are some examples of transactions where the disposal price is deemed to be equal to its acquisition price:

- devolution of assets of a deceased individual.
- transfer of assets (owned by a citizen) between spouses.
- gifts made to the Government, State Government, local authority or approved charity.
- disposal of asset as a result of compulsory acquisition under any law.
- disposal of chargeable asset pursuant to a scheme of financing approved by Bank Negara Malaysia, Labuan Financial Services Authority, Malaysian Co-operative Societies Commission or the Securities Commission as a scheme which is in accordance with the principles of Syariah.

The following are some examples of transactions where the disposer is treated to have received no gain and suffered no loss:

- transfer of real property with prior approval of the DGIR by a company to companies in the same group to bring about greater efficiency in operation for a consideration consisting of not less than 75% in shares.
- transfer by way of gift between husband and wife, parent and child, or grandparent and grandchild, provided the donor is a citizen. *W.e.f. the operation of the law, to include transfer between former spouses pursuant to a court order in consequence of a dissolution / annulment of marriage, where the transferor is a citizen.*

### **2. Tax on capital gains from unlisted shares**

*A review will be conducted with a view to introducing a capital gains tax on disposal of unlisted shares by companies from 2024.*

## STAMP DUTY

### ***Basis of taxation***

Stamp duty is chargeable on instruments and not on transactions. If a transaction can be effected without creating an instrument of transfer, no duty is payable.

An unstamped or insufficiently stamped instrument is not admissible as evidence in a court of law, nor will it be acted upon by a public officer.

Assessment and payment of stamp duty can be made electronically via the Stamp Assessment and Payment System.

### ***Rates of duty***

The rates of duty vary according to the nature of the instruments and transacted values. Generally, transfer of properties can give rise to significant stamp duty:

#### **b) Properties (other than shares, stock or marketable securities)**

	Value (RM)	Rate	Duty payable (RM)
On the first	100,000	RM1 per RM100 or part thereof	1,000
On the next	400,000	RM2 per RM100 or part thereof	8,000
On the next	500,000	RM3 per RM100 or part thereof	15,000
	<u>1,000,000</u>		<u>24,000</u>
In excess of	1,000,000	RM4 per RM100 or part thereof	

#### **c) Non-listed shares, stock or marketable securities**

RM3 for every RM1,000 or any fraction thereof based on consideration or value, whichever is greater. The Stamp Office generally adopts one of the 2 methods for valuation of unlisted ordinary shares for purposes of stamp duty:

- net tangible assets; or
- sale consideration.

#### **d) Shares or stock listed on Bursa Malaysia**

RM1.50 for every RM1,000 or any fraction thereof based on the transaction value.

# STAMP DUTY

## e) Listed marketable securities

RM1 for every RM1,000 or any fraction thereof based on the transaction value.

## f) Service Agreements and Loan Agreements

Stamp duty of 0.5% on the value of the services / loans. However, stamp duty may be remitted in excess of 0.1% for the following instruments:

### 1. Service agreement

		Stamp duty
All service agreement (one tier)		<i>Ad valorem</i> rate of 0.1%
Multi-tier service agreement:		
a) Non-government contract (i.e. between private entity and service providers)	First level	<i>Ad valorem</i> rate of 0.1%
	Subsequent level(s)	Up to RM50
b) Government contract (i.e. between Federal / State Government or State / local authority and service providers)	First level	Exempted
	Second level	<i>Ad valorem</i> rate of 0.1%
	Subsequent level(s)	Up to RM50

### 2. Loan agreement / loan instrument

Malaysian Ringgit loan agreements generally attract stamp duty at 0.5%. However, a reduced stamp duty liability of 0.1% is available for Malaysian Ringgit loan agreements or instruments without security and repayable on demand or in single bullet repayment.

Stamp duty on foreign currency loan agreements is generally capped at RM2,000.

### **Stamping**

Instruments executed in Malaysia which are chargeable with duty must be stamped within 30 days from the date of execution. When the instruments are executed outside Malaysia, they must be stamped within 30 days after they have first been received in Malaysia.

## ***Penalty***

The penalty imposed for late stamping varies based on the period of delay. The maximum penalty is RM100 or 20% of the deficient duty, whichever is higher.

## ***Relief / Exemption / Remission from stamp duty***

Examples of the exemptions, remissions or reliefs of stamp duty available are as follows:

### **1. Merger and acquisition**

- Relief on the transfer of the undertakings or shares under a **scheme of reconstruction or amalgamation of companies** (conditions apply).
- Relief on the **transfer of assets between associated companies**, where either company owns 90% or more of the other company, or where a third company owns 90% or more of both associated companies (conditions apply).
- Stamp duty exemption on qualifying instruments executed for the merger and acquisition of Micro, Small and Medium Enterprises (MSMEs) approved by the Ministry of Entrepreneur Development and Cooperatives from 1 July 2020 to 30 June 2022 and executed by 31 December 2022.

### **2. Financing instrument**

- Stamp duty exemption on loan / financing agreements executed from 1 January 2022 to 31 December 2026 between MSMEs and investors for funds raised on a peer-to-peer platform registered and recognised by the Securities Commission (SC).
- Stamp duty exemption on instrument of agreement for a loan or financing in relation to a **Micro Financing Scheme** (approved by the National Small and Medium Enterprise Development Council) between a borrower and a participating bank or financial institution.
- Stamp duty exemption on all loan or financing instruments in relation to the **Professional Service Fund** for an amount up to RM50,000 between a borrower and Bank Simpanan Nasional.
- Stamp duty exemption on all instruments of an Asset Sale Agreement & Asset Lease Agreement executed between a customer and a financier made under Syariah law principles for **renewing any Islamic revolving**

## STAMP DUTY

**financing facility**, provided the instrument for existing facility is duly stamped.

- Stamp duty on any instruments of an Asset Lease Agreement executed between a customer and a financier made under the Syariah principles for **rescheduling or restructuring any existing Islamic financing facility** is remitted to the extent of the duty that would be payable on the balance of the principal amount of the existing Islamic financing facility, provided the instrument for existing Islamic financing facility has been duly stamped.
- Stamp duty exemption on all instruments relating to the **purchase of property by any financier for the purpose of leaseback** under the principles of Syariah or any instrument by which the financier shall assume the contractual obligations of a customer under a principal sale and purchase agreement.
- Stamp duty exemption on loan or financing agreements executed from 1 July 2021 to 31 December 2022 (*extended to 31 December 2024*) in relation to **restructuring or rescheduling of business loans** due to the inability of the borrower to comply with existing repayment schedule consequent to deteriorating financial conditions.

### 3. Instrument of transfer

- Remission of 50% of stamp duty chargeable on the instrument of **transfer of immovable property operating as voluntary disposition between parent(s) and child and vice versa**, provided that the recipient(s) is a Malaysian citizen.
- *Stamp duty exemption on the instrument of transfer of property (executed from 1 April 2023) by way of love and affection between parents and children, grandparents and grandchildren, limited to the first RM1 million of the property's value, provided the recipients are Malaysian citizens. The balance of the property's value is given 50% remission on the ad valorem stamp duty imposed.*
- Exemption for instruments of transfer of immovable property operating as voluntary disposition between husband and wife.
- Stamp duty exemption on all instruments of transfer of land, business, asset and share in relation to the **conversion of a conventional partnership or a private company to be a limited liability partnership**.

## STAMP DUTY

### 4. Purchase of first residential property

- Stamp duty exemption on the instrument of transfer and loan agreement for purchase of first residential property:

Value of property & type of instrument (RM)	Exemption	Sale & Purchase agreement executed during the period
Up to 500,000 (Instrument of transfer & loan agreement) (Note 1)	100%	1.1.2021 to 31.12.2025
<i>500,001 - 1,000,000</i>	<i>75%</i>	<i>Period not stated</i>

Note: 1. Purchase of first residential home by a Malaysian citizen

- Stamp duty exemption on the instrument of transfer in relation to the purchase of the first residential property valued at not more than RM500,000 by a Malaysian citizen under the National Housing Department's Rent-to-Own (RTO) scheme. The exemption is given at 2 stages of transfer, i.e. from the property developer (PD) to a qualifying financial institution (FI), and from the FI to the Malaysian citizen. The exemption is subject to execution of the following agreements during the period from 1 January 2020 to 31 December 2022, i.e. sale and purchase agreement between the PD and FI and RTO agreement between the FI and the Malaysian citizen.

### 5. Abandoned housing projects

- Stamp duty exemption on instruments executed by a **rescuing contractor or a developer** approved by the Minister of Housing and Local Government **to carry on rehabilitation works for an abandoned project**. The instruments are loan agreements approved by the approved financier and instruments of transfer for the purpose of transferring revived residential property in relation to the abandoned project which are executed by 31 December 2025.
- Stamp duty exemption on instruments executed by an **original purchaser**, whose name is stated in the Sale and Purchase Agreement **in relation to an abandoned project**, or his beneficiary. The instruments are loan agreements approved by the approved financier and instruments of transfer which are executed by 31 December 2025.

### 6. Others

- Stamp duty exemption on specified instruments for the purpose of a **securitisation transaction**.
- Stamp duty exemption on all instruments relating to the issue of, offer for subscription or purchase of, or invitation to subscribe for or purchase **debentures or Islamic securities** approved by the SC and the transfer of such debentures or Islamic securities.

## ***Scope of taxation***

Sales tax is a single-stage tax imposed on taxable goods manufactured locally by a registered manufacturer, and on taxable goods imported by any person.

“Manufacture” of goods, other than petroleum, is defined as the conversion by manual or mechanical means of organic or inorganic materials into a new product by changing the size, shape, composition, nature or quality of such materials and includes the assembly of parts into pieces of machinery or other products but does not include the installation of machinery or equipment for the purpose of construction.

Special treatment is given to transactions involving Designated Areas (Labuan, Langkawi, Tioman and Pangkor) and Special Areas (free zones, licensed warehouses, licensed manufacturing warehouses and the Joint Development Area).

## ***Taxable goods***

All goods manufactured in Malaysia by registered manufacturers or imported by any person are taxable unless they are specifically exempted by order of the Minister of Finance.

## ***Rates of tax***

Sales tax is generally an *ad valorem* tax. Specific rates of sales tax are currently only imposed on certain classes of petroleum (generally, refined petroleum). The *ad valorem* rates are 5% and 10%, determined based on the HS Tariff Classification of the goods.

## ***Sales tax on imported low value goods***

Effective 1 April 2023, low value goods (LVG), i.e. goods which have a sale value of not more a certain value, sold on an online marketplace and imported into Malaysia using any mode of transport will be subject to sales tax at the point of sale. The legislation to impose sales tax on imported LVG has been passed in Parliament but the implementation date, prescribed value, type of goods and rate of tax applicable has yet to be gazetted.

The details on the imposition of sales tax on LVG that have been communicated are as follows:

- Tax rate: A flat rate of 10%

## SALES TAX

- **Registration:** Both local and foreign sellers of LVG on any online marketplace as well as operators of online marketplace are required to register for sales tax and charge sales tax on LVG if their total sale value for a 12-month period exceeds the registration threshold of RM500,000. Registration can start from 1 January 2023.
- **Calculation of sales tax:** The sale value used in the calculation of sales tax shall exclude any tax, fee or other charges imposed on the imported LVG.
- **Sales tax due:** Sales tax on LVG is due when the LVG are sold by the seller.
- **Taxable period and furnishing of return:** The taxable period for a registered LVG seller is 3 months and the returns must be furnished to Customs by the last day of the month following the end of the taxable period.
- **Customs control:** Customs can withhold the LVG if it appears that sales tax has not been charged, insufficiently charged or paid. The LVG can only be released after the correct amount of sales tax on the LVG has been paid in full.
- **Transitional:** LVG which are purchased before the effective date of imposition of sales tax on LVG are not subject to sales tax even if the LVG are delivered to Malaysia after the effective date.

### ***Goods exempted***

All goods manufactured for export are exempted from sales tax. Other goods which are specifically exempted include:

- Live animals, fish, seafood and certain essential food items including meat, milk, eggs, vegetables, fruits, bread.
- Books, magazines, newspapers, journals and periodicals.
- Bicycles including certain parts and accessories.
- Naturally occurring mineral substances, chemicals, etc.
- Pharmaceutical products such as medicine, medical cream, cough syrup, bandage, medicaments containing multivitamin & minerals, etc
- Fertilisers (animal origin or chemical) and insecticides.
- Articles of goldsmith such as gold or platinum jewellery, silver tableware, etc.

## SALES TAX

A complete list of goods exempted from sales tax can be found in the Sales Tax (Goods Exempted from Tax) Order 2018.

### ***Tax-free raw materials***

In order to maintain the single-stage concept, there are facilities available to allow for inputs (raw materials and components) to be imported or acquired free of sales tax by a registered manufacturer for use in the manufacturing process.

### ***Registration***

A taxable person is a manufacturer who is registered or liable to be registered for sales tax. A manufacturer is liable to be registered if the total sales value of his taxable goods for a 12-month period exceeds or is expected to exceed RM500,000. Any manufacturer who is not liable to be registered for sales tax or exempted from registration may apply to the Director General (DG) of Customs for registration as a registered manufacturer.

### ***Exemption from registration***

Certain manufacturing activities are exempted from the registration requirement. They include the developing and printing of photographs and production of film slides, manufacture of ready mixed concrete, preparation of meals, repair of second hand or used goods and the installation of air conditioners in motor vehicles.

### ***Payment of sales tax and taxable period***

Sales tax is due at the time the taxable goods are sold, disposed of otherwise than by sale, or first used otherwise than as materials in the manufacture of taxable goods, by the taxable person. However, in relation to the classes of petroleum that are subject to sales tax, special provisions apply regarding the time when sales tax is due.

Any sales tax that falls due during a taxable period is payable to the Royal Malaysian Customs Department (RMCD) latest by the last day of the month following the end of the taxable period. A taxable period is a period of 2 calendar months. However, a taxable person can apply to the DG of Customs to vary the taxable period. If the application to vary the taxable period is approved, the sales tax due is payable to RMCD latest by 30 days from the end of the varied taxable period.

### ***Refund of sales tax on bad debts***

A registered manufacturer or a person who has ceased to be a registered manufacturer can apply for a refund of sales tax in relation to bad debts. The conditions for the refund application are that:

- the whole or part of the sales tax paid has been written off as a bad debt; and
- all reasonable efforts have been made by the applicant to recover the sales tax.

### ***Drawback***

A person may apply to the DG of Customs to claim drawback on the sales tax paid in respect of imported or locally acquired goods which are subsequently exported.

### ***Sales tax deduction***

Registered manufacturers are able to apply to the DG of Customs for the following amount of sales tax deduction on the taxable raw materials, components or packaging materials acquired from local traders and used solely in the manufacturing of their taxable goods.

- 2% of the total value of taxable goods purchased if the taxable goods were charged and levied with sales tax of 5%
- 4% of the total value of taxable goods purchased if the taxable goods were charged and levied with sales tax of 10%

### ***Exemptions***

#### **1. Approved Major Exporter Scheme**

The Approved Major Exporter Scheme was introduced for traders and manufacturers whose annual sales exceed RM10 million and who export at least 80% of their annual sales. Such approved traders and manufacturers are granted full sales tax exemption on their importation or purchase of goods. Traders and manufacturers who fulfill all the prescribed conditions can apply to the DG of Customs for approval under this scheme.

### **Scope of taxation**

Service tax is a consumption tax levied and charged on:

- any taxable service (including digital services) provided in Malaysia by a registered person in carrying on his business;
- any imported taxable services acquired by any person who carries on business in Malaysia; and
- any digital services provided by a foreign registered person to a Malaysian consumer.

Special concessionary treatment is given to transactions involving Designated Areas (Labuan, Langkawi, Tioman and Pangkor) and Special Areas (free zones, licensed warehouses, licensed manufacturing warehouses and Joint Development Area).

### **Taxable persons and taxable services**

Examples of taxable services include but are not limited to the provision of accommodation premises, sale or provision of food, drinks and alcoholic beverages, certain professional services, digital services (including electronic platform services), certain telecommunication services, betting and gaming services, management services, security services, provision of parking space, provision of golf course, golf driving range or services related to golf or golf driving range, courier and certain delivery services (other than to destinations outside Malaysia), domestic flight services, provision and issuance of charge card or credit card whether or not annual subscription or fee is imposed, and provision of electricity to domestic consumer. A complete list of taxable persons and taxable services can be found in the First Schedule to the Service Tax Regulations 2018.

### **Rate of tax**

The rate of service tax is 6% *ad valorem* for all taxable services and digital services except for the provision of charge or credit card services. Service tax for the provision of charge or credit card services is RM25 per year on each principal card or supplementary card.

### **Registration**

A taxable person is a person who is registered or liable to be registered for service tax. A person is liable to be registered if the total value of his taxable

	Cleaning services providers*	500,000

\* These are subject to some exclusions

Any person who is not liable to be registered for service tax may apply to the Director General (DG) of Customs for registration as a registered person.

Foreign digital service providers are liable to be registered if the total value of digital services provided to Malaysian consumers for a 12-month period exceeds or is expected to exceed the prescribed registration threshold of RM500,000.

### ***Invoice***

A registered person is required to issue an invoice with the prescribed particulars for the taxable services rendered. A foreign registered person is also required to do the same. However, the requirements are much more simplified. The prescribed particulars include description of the taxable or digital services provided, total amount payable excluding tax and amount of service tax. The invoice may be issued and sent electronically.

### ***Payment of service tax by a registered person (bi-monthly)***

Service tax is due when:

- payment is received for the taxable services rendered, or
- immediately after the 12th month from the date of provision.

Taxpayers may request to account for service tax based on the date of invoice via an application to the DG of Customs.

Service tax due is accounted for and payable to the Royal Malaysian Customs Department (RMCD) every 2 months (i.e. taxable period). The service tax return (SST-02) and payment is due by the last day of the month following the end of the taxable period. A taxable person can apply to the DG of Customs to vary the taxable period.

### ***Payment of service tax on imported taxable service by a non-taxable person (monthly)***

A non-taxable person is required to account for service tax on imported taxable services acquired in the course of business via an SST-02A form. The service tax is due at the earlier of the payment date or the date the invoice for the services is received. The SST-02A form and the payment of service tax must be made by the last day of the month following the month in which the service tax is due.

### ***Payment of service tax by a foreign registered person (quarterly)***

Service tax is due when payment is received for the digital services provided. The foreign registered person can apply to account for service tax based on invoice date.

The service tax that falls due during a taxable period (3 months) is payable to the RMCD by the last day of the month following the end of that taxable period. A foreign registered person can apply to the DG of Customs to vary the taxable period.

### ***Refund of service tax on bad debts***

A registered person or a person who has ceased to be a registered person can apply for a refund of service tax in relation to bad debts. The conditions for the refund application are that:

## SERVICE TAX

- the whole or part of the service tax paid has been written off as a bad debt; and
- all reasonable efforts have been made by the applicant to recover the service tax.

### ***Group relief***

Service tax is not applicable to the following transactions performed among companies within a qualifying group of companies, (i.e. subject to certain qualifying criteria):

- a) Provision of certain qualifying professional services in Malaysia by a registered person;
- b) Acquisition of certain qualifying professional services from overseas by a Malaysian business; and
- c) Provision of digital services by foreign service providers.

### ***Exemption***

#### **1. Exemption for specific business-to-business (B2B) services**

To minimise the tax pyramiding effect on businesses, certain taxable professional services or advertising services provided by a registered person to another registered person who is registered for the same service are exempted from service tax, subject to certain qualifying criteria.

Local service tax registered businesses which provide certain taxable professional services or advertising services are exempted from having to account for and pay service tax through the imported taxable service mechanism on the same professional services or advertising services acquired from foreign service providers, subject to certain qualifying criteria. In addition, local service tax registered businesses which provide digital services can claim refund of service tax paid on digital services acquired from foreign registered persons if the digital service acquired is the same as the digital service they provide.

### ***Import duties***

#### **1. Scope and rates**

Import duties are levied on dutiable goods imported into the country, generally on an *ad valorem* basis but may also be imposed on a specific basis. The *ad valorem* rates ranges from 0% to 60%. Raw materials, machinery, essential foodstuffs and pharmaceutical products are generally non-dutiable or subject to duties at lower rates.

#### **2. Tariff rate quota (TRQ)**

Malaysia applies TRQ on selected agricultural products, such as chicken, milk and cream, hen eggs, cabbages. Under TRQ, the tariff charged depends on the volume of imports (“the quota”) which is determined by the relevant government agencies. Lower tariff applies to within quota imports and higher tariff for imports exceeding the quota.

#### **3. Value of goods**

The value of goods for the purpose of computing import duties is determined largely in accordance with the World Trade Organisation principles of customs valuation.

#### **4. Exemptions**

There is a range of duty exemptions on specific goods that prescribed persons are eligible to claim, subject to prescribed conditions under an Order made by the Minister. In addition, manufacturers are eligible to apply for merit-based duty exemptions on:

- raw materials and components used directly for the manufacture of goods for export and domestic markets.
- dutiable machinery and equipment which are used directly in the manufacturing process.

Approval is subject to Confirmation of “Local Non-Availability” and “Directly Used in Manufacturing” rules.

Manufacturers are required to apply to the relevant authorities for exemption. For example, Malaysian Investment Development Authority and Royal Malaysian Customs Department.

## OTHER DUTIES

*Import duty exemption is to be granted for nicotine gum and nicotine patches for a period of 3 years for applications from 1 April 2023 to 31 March 2026.*

*Exemptions for carbon capture and storage - refer to "Tax Incentives" chapter.*

### 5. Prohibition of imports

Import restrictions are imposed on a range of products for protection of local industries or for reasons of security and public safety. An import licence has to be obtained for the importation of prohibited goods, unless otherwise exempted. Examples of goods requiring an import licence / permit from relevant authorities into Malaysia include:

- Certain food products (such as rice), medical devices, cooking appliances, pharmaceuticals and cosmetics
- Certain electrical operated machinery
- Motor vehicles for the transport of persons, goods or materials
- Used televisions including video or visual display with TV tuner, used air conditioners, used personal computers and used mobile phones
- Billets of iron or steel
- Alloy steel and high carbon steel
- Stranded wire, cables, cordage, ropes, plaited bands and the like of aluminium wire
- Natural or synthetic rubber insulated or plastics insulated electric wire, cable, bars and strip and the like, whether or not fitted with connectors
- Heavy machineries
- Petroleum
- Rags, plastics, papers or filters contaminated with scheduled wastes
- Chlorofluorocarbons (CFCs) and Hydrofluorocarbons (HFCs)
- Telecommunications equipment
- Tobacco products, alcoholic beverages
- Radioactive / nuclear materials / prescribed substances
- Arms and ammunition
- Motor vehicles parts

## OTHER DUTIES

- Waste and scrap of paper, paperboard and metal

Effective 10 January 2022, absolute prohibition applies on imports of mixed waste and scrap of miscellaneous paper or paperboard.

### 6. Prohibition of exports

Export restrictions are seldom imposed except on a limited range of products for reasons of security and public safety. An export licence has to be obtained for the exportation of prohibited goods.

Categories of goods requiring an export licence include, but are not limited to:

- Cement clinker
- Portland cement
- Slags, dross, scaling and similar waste of iron and steel, zinc, nickel, copper, lead, aluminium
- Tin slag and hardhead of tin
- Zinc dust and sludge form
- Used televisions including video or visual display with TV tuner, used air conditioners, used personal computers and used mobile phones
- Hydrofluorocarbons (HFCs)
- Face masks
- Rice

Import and export licence applications may be submitted electronically via DagangNet (e-Permit) or manually to the relevant licence / permit processing authority.

### ***Export duties***

Export duties are generally imposed on the country's main commodities such as crude petroleum and palm oil for revenue purposes.

### ***Excise duties***

#### 1. Scope and rate

Excise duties are imposed on a selected range of goods manufactured in Malaysia or imported into Malaysia. These include beer / stout, cider and perry, rice wine, mead, indentured ethyl alcohol, brandy, whisky, rum and

## OTHER DUTIES

tafia, gin, cigarettes containing tobacco, electronic cigarette and electronic vaporising device, motor vehicles, motorcycles, playing cards and mah-jong tiles.

The rates of excise duties vary from a composite rate ranging from RM1.10 per litre and 15% for certain types of spirituous beverages, RM0.40 per stick for cigarettes, to as much as 105% for motorcars (depending on engine capacity).

Specified sugar-sweetened beverages are subject to an excise duty rate of RM0.40 per litre. On 31 March 2022, the Malaysian Customs announced that the imposition of excise duty on pre-mixed preparations of chocolate or cocoa-based, malt, coffee and tea such as 2-in-1 or 3-in-1 pre-mixed beverages will take effect on 1 January 2023. Excise duty for nicotine-free liquids or gels used in electronic cigarettes and vape that was proposed in Budget 2022 to increase from RM0.40 per millilitre to RM1.20 per millilitre is postponed until further notice.

*It is proposed that excise duty will also be imposed on liquid or gel containing nicotine used in electronic cigarettes and vape.*

### 2. Specific exemptions for electric vehicles (EV)

- From 1 January 2022 to 31 December 2025 (*extended to 31 December 2027*), full import duty exemption on components are granted for Completely Knocked Down (CKD) EVs and full excise duty and sales tax exemption are granted for CKD EVs.
- W.e.f. 1 January 2022 to 31 December 2023 (*extended to 31 December 2025*), full import duty and excise duty exemption will also be given to Completely Built Up (CBU) EVs.

### 3. Specific exemption for individually owned taxis and hired cars

*W.e.f. 1 March 2023, full sales tax and excise duty exemption is to be granted on the sale / transfer / private use / disposal of budget taxis, executive taxis, Teksi 1 Malaysia, airport taxis (budget and family), and hired cars, which have been held for at least 5 years (previously 7 years) from the registration date.*

### 4. Studio and filming production equipment

*Sales tax and import duty exemptions on studio and filming production equipment will be given to providers of equipment and production services*

## OTHER DUTIES

*including post-production, studio and cinema for a period of 3 years.  
Applications to be received by the Ministry of Finance from 1 April 2023 until  
31 March 2026.*

### 5. Excise licensing

- Unless exempted from licensing, a manufacturer of tobacco, intoxicating liquor, sweetened beverages or goods subject to excise duties must have a licence to manufacture such goods.
- The licence to manufacture also permits the holder to store such goods, otherwise a warehouse licence is required for storage of goods subject to excise duty.

### 6. Payment of duty

As a general rule, duty is payable at the time the goods leave the place of manufacture. However, excise duty on a predefined list of motor vehicles for the transport of persons is not payable until the vehicles are removed from the place of manufacture for registration with the Road Transport Department, provided that a security is given (up to a maximum of 4 years from the date of removal from the place of manufacture).

### 7. Exports

No excise duty is payable on dutiable goods that are exported.

#### *Luxury goods tax*

*The Government has proposed to introduce a Luxury Goods Tax in 2023 for a specific threshold value based on the certain type of items such as luxury watches and luxury fashion items.*

#### **Licensed Manufacturing Warehouse (LMW)**

Manufacturers who export 80% or more of their finished products can apply for LMW status. Raw materials, components and machinery used in the manufacturing process are generally exempted from import duties and sales tax.

#### **Free Zone**

A free zone is deemed to be a place outside a principal customs area. Subject to certain exclusions, goods can be brought into, produced or provided in a free zone without payment of customs duty or excise duty. A

free zone is any area in Malaysia which has been declared by the Minister to be a Free Zone. There are two types of Free Zones in Malaysia: (a) Free Industrial Zone (FIZ) and (b) Free Commercial Zone (FCZ). Manufacturing activities are allowed to be conducted in FIZ while trade activities are allowed to be conducted in FCZ.

At present, approval for the value-added activities and additional activities to be carried out at the FIZ and LMW is subject to the condition that the sales value of the value-added and additional activities shall not exceed 40% of the company's annual sales value (Note that the increased in annual sales value threshold may be subject to further amendment by the Government. It was granted to FIZ and LMW companies during the COVID-19 pandemic with an aim to increase the competitiveness of the company as well as to fulfil the dynamics of global trade).

### ***Authorised Economic Operator (AEO)***

Currently, the AEO status is given to eligible manufacturers, operators (including warehouse operators), traders and logistics service providers. An AEO is a person who is involved in import and export activities and, having been "certified" to be compliant in its customs related operations, is entitled to enjoy benefits provided in the AEO program.

### ***Free Trade Agreements***

Malaysia has concluded several regional and bilateral free trade agreements and several more are still under negotiation. One of the key features of free trade agreements is the preferential tariff treatment accorded to member countries. Currently, the following free trade agreements are in force:

- ASEAN Trade in Goods Agreement
- ASEAN-China Free Trade Agreement
- ASEAN-Hong Kong, China Free Trade Agreement
- ASEAN-Korea Free Trade Agreement
- ASEAN-Australia-New Zealand Free Trade Agreement
- ASEAN-Japan Comprehensive Economic Partnership Agreement
- ASEAN-India Trade in Goods Agreement
- Preferential Trade Agreement Amongst D-8 Member States
- Malaysia-Pakistan Closer Economic Partnership Agreement

## OTHER DUTIES

- Malaysia-Japan Economic Partnership Agreement
- Malaysia-Chile Free Trade Agreement
- Malaysia-India Comprehensive Economic Cooperation Agreement
- Malaysia-New Zealand Free Trade Agreement
- Malaysia-Australia Free Trade Agreement
- Malaysia-Turkey Free Trade Agreement
- Regional Comprehensive Economic Partnership
- Comprehensive and Progressive Agreement for Trans-Pacific Partnership

The preferential tariff treatment and the rules of origin may vary from one free trade agreement to another.

### ***Windfall Profit Levy***

Windfall Profit Levy is levied on Crude Palm Oil (CPO) producers. A 3% levy rate is imposed on the CPO threshold value of RM3,000 per metric ton for Peninsular Malaysia and RM3,500 per metric ton for Sabah and Sarawak.
