Are you ready for a GST audit?

It has been 16 months since the introduction of the Goods and Services Tax (GST) and the Royal Malaysian Customs Department (RMCD) has begun conducting GST audits.

You need to understand the type of information to be reported in the GST-03 returns and the potential triggers of a GST audit to lower the risks or chances of being selected for an audit.

When faced with a GST audit, it is vital that you know you have maintained all the relevant documents and information that is required to be provided to the RMCD.

What does our course offer?

- Provides participants with an understanding of the potential triggers of a GST audit
- Enables you to assess and determine whether your record keeping policies and procedures are GST compliant
- Learn about the types of GST audits conducted by the RMCD
- Gain an understanding of the potential GST risk areas that may be the focus of a RMCD GST audit
- Understand the methods and strategies to manage a GST audit from the beginning to the end
- Learn about the types of appeals open to you should an assessment be raised by the RMCD
- Be aware of the relevant GST legislation governing GST audits and appeals, which includes the powers of the RMCD as well as your obligation and rights
- Gain an understanding on the relevant details and information to be reported in each and every item of the GST-03 return
