### **PwC Business School**

# Microsoft Office Training 2018 19 - 26 February 2018

### 19 February 2018 Ms. Word - Basic level

In this course, you will learn fundamental Word 2013 skills. You will start by getting acquainted with the Word user interface, creating a new document, and finding help. You will find, select, and modify text. You'll format text as well as paragraphs, and add tables to documents. You'll manage more complicated lists, and insert graphic objects. You'll apply design and layout options to pages. You'll check your documents for spelling, grammar, and other errors, and use other proofing tools to look up information. Finally, you'll customise the Word environment to better suit your individual work habits, and learn additional methods of saving documents.

#### Course content:

- Getting Started with Word
- Editing a Document
- · Formatting Text and Paragraphs
- · Adding Tables
- Managing Lists
- Inserting Graphic Objects
- Controlling Page Appearance

- · Proofing a Document
- Customising the Word Environment

**Target Audience:** This course is intended for students who want to learn basic Word 2013 skills, such as creating, editing, and formatting documents; inserting simple tables and creating lists; and employing a variety of techniques for improving the appearance and accuracy of document content.

### 20 February 2018 Ms. Word - Advanced level

In this course, you will expand your knowledge of Microsoft Word. You will work with tables and charts to organise and summarise data. You will use styles and themes to customise the look of your documents. You will add images and custom graphic elements to your documents to graphically show information. You will add building blocks of information and updatable fields to the document to improve efficiency. You will control how text flows around graphics, between paragraphs,
