

Data Analytics Bursary opportunities...are you the one?

Your career is just that; yours. You choose it. You live it. You make it happen.

PwC Namibia offers a unique opportunity to pursue a career as a **Data Scientist in data and process analytics**. For those interested, this career will enable you to build an in-depth understanding of how businesses function and how to apply key analytical principles to derive valuable business insight from business processes.

We are offering Bursaries for

- **B.Com Informatics/Information Systems Management**
- **B. Eng Industrial**
- **B. Sc Applied Mathematics/Statistics**
- **B. Com Accounting/Management Accounting**

at North-West University, or other recognised Universities with similar qualification.

Requirements:

- Must be a Namibian Citizen;
- Grade 12, Mathematics on Higher Level with an average of 75%, and if you have this subject on Extended Level an A* is required;
- Students must qualify for admission or be registered at a University that is recognised, e.g North-West University;
- Namibians currently studying towards a B.Com Economics & Informatics / Honors Information Systems are also invited to apply;
- Demonstrating versatility at school will be an added advantage that we would consider as part of our awarding of bursaries. Activities may include participation in a sport, occupying a leadership position, participating in a cultural extra mural activity, participating in a science fair, participating in a community activity etc.;
- Two written references are to be included. One from inside the school and one from outside of school excluding a family member;
- Applicants have to submit an essay of approximately 300 words on what the characteristics are that make you the most suitable candidate for awarding a bursary to;
- Other requirements include proficiency in English, good communication skills, logical thinking to solve problems, working knowledge of technology, good social skills, and be able to work well in a team;
- Students who obtained a bursary from another financial institution that requires the student to complete work after studies, will not qualify for a PwC bursary;
- Current University students studying towards a Chartered Accountant qualification are also invited to apply;
- Shortlisted candidates will be subject to a personality and aptitude test.

Please note you have to register your profile and apply **online**. No hardcopy applications will be accepted.
