

Introduction

In responding to the impact of COVID-19, PwC Nigeria launched the PwC Cares COVID-19 Intervention, a special societal impact initiative aimed at supporting our society at a difficult challenge. Four months on, we have worked to bring these initiatives to life and have made a clear difference across all areas.

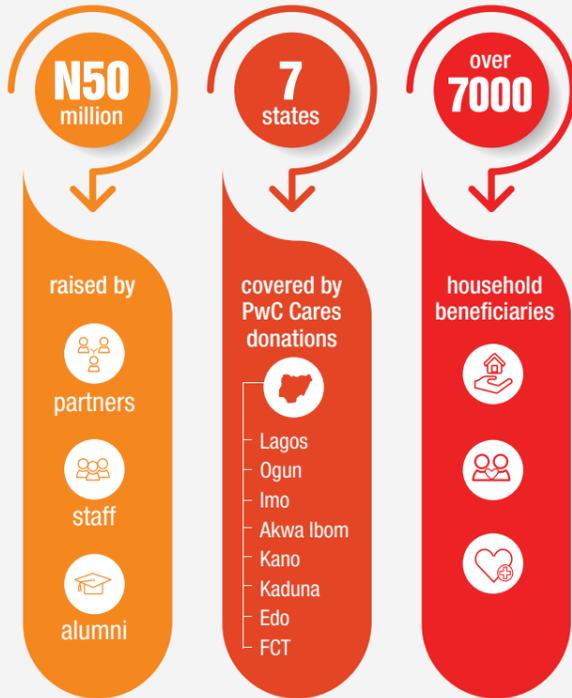

This bulletin which will come to you bi-monthly, will provide updates on what we have done and the various new ways we continue to provide ongoing support to individuals, businesses and government, impacted by this pandemic.

Insights Hub

We have built up knowledge around responding to the business impacts of COVID-19 and this is domiciled at our COVID-19 Insights hub.

Donations

Government Measures

We have kept pace with various government pronouncements both at the state and federal levels and have captured these for easier reference by all. So far, we have documented 186 measures across 15 categories.

SMEs Support

We are providing pro bono complementary business continuity support service to small businesses employing 5 to 50 employees who undertake to retain all of their staff during this period.

We have held our first stream of 4 Day masterclasses

Support for CaCOVID

Epilogue

Our PwC Cares COVID-19 intervention is one of the ways we bring to life, our value of Care and our commitment to achieving greater societal purpose. In the next issue of this bulletin we will bring you more in-depth analysis of one key aspect of our intervention.
