

# Financial consolidation and reporting (FCR)

Legacy systems often lack the necessary agility and scalability for today's dynamic environment, resulting in lengthy implementations, steep learning curves, and high IT costs. These systems require complex customisations and operate with siloed data, leading to delayed reporting, compliance risks, and inefficiencies.

Anaplan offers a modernised solution for financial consolidation and reporting, eliminating manual, time-consuming processes and seamlessly integrating disparate data sources for a comprehensive financial overview. Discover how Anaplan can streamline and automate complex tasks, accelerate the closing process, reduce risk, and enable your teams to focus on value-added analysis.

## Financial consolidation and reporting capabilities

### Financial consolidation

- Enhance **collaboration and accuracy** during financial closing process
- Create **transparent** audit trails
- Establish **integrated systems** for greater data confidence

### Disclosure management

- Create compliant books, narrative reports, and **financial disclosures**
- Meet **regulatory requirements** with industry-leading best practice
- Enhance **internal collaboration**

### Financial reporting

- Connect multiple data sources for **real-time** data access
- Set up **automatic reporting** for greater accuracy and security
- Generate customisable, **interactive** reports tailored to stakeholders

# Key benefits

Up to **90%**  
faster close and  
reporting times

**Cut close and reporting time**  
Eliminate manual work and increase automation across the fixed charge coverage ratio (FCCR) process

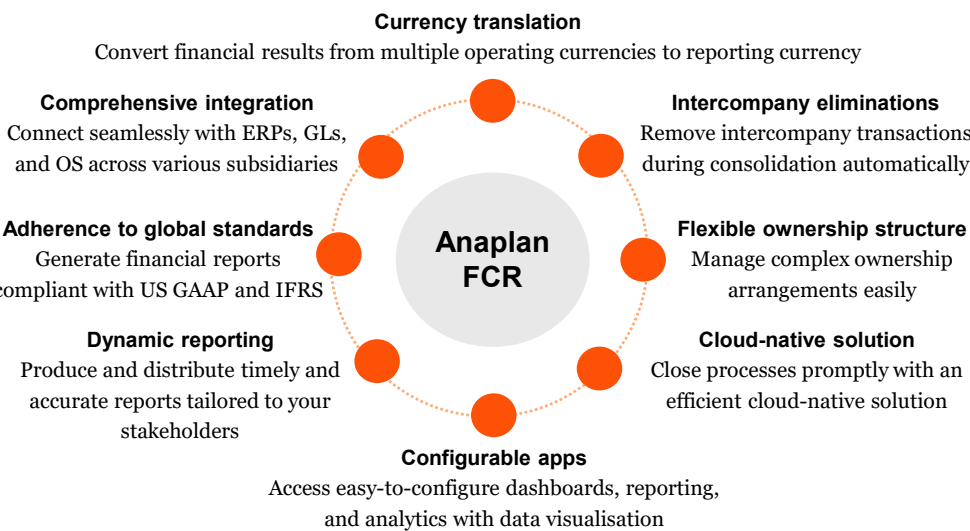

Up to **50%**  
reduction in  
annual audit time

**Report with confidence**  
Produce trusted, transparent numbers quickly

**1 day**  
to integrate new  
acquisitions

**Simplify the consolidation process**  
Spend less time on manual work by utilising out-of-the-box logic and calculations for new acquisitions, currency conversions, workflows, and more
