

PwC Rwanda Capability Statement

Who we are

01

The New Equation and our Africa footprint

Our clients come to PwC for innovative and imaginative solutions to help them meet the challenges they face and capitalise on the opportunities they have to build trust with – and deliver sustained outcomes for – their stakeholders.

At PwC, our purpose is to build trust in society and solve important problems. We're a network of firms in 156 countries with over 295,000 people who are committed to delivering quality in assurance, advisory and tax services. Find out more and tell us what matters to you by visiting us at www.pwc.com

In Africa, we're the largest provider of professional services with over 450 partners and over 10,000 people in 32 countries. This means that we're able to provide our clients with seamless and consistent Tax, Assurance and Advisory solutions, wherever they do business on the continent.

Our strategy, The New Equation, is about how PwC brings together unique combinations of people, powered by technology, galvanising ourselves as a community of solvers to address those dual challenges. The foundation of the strategy is our multidisciplinary model, which allows us to help clients **build trust** and deliver sustained outcomes by bringing together deep expertise across a broad range of capabilities. It is this combination of capabilities and the ability to look at things from different perspectives that is so essential to delivering high quality and real impacts for clients, stakeholders and society at large in Africa and globally.

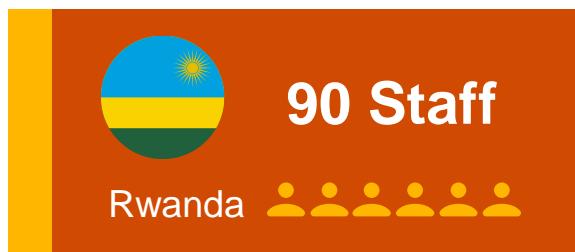

Rwanda footprint

In Rwanda

Our local capability comprises over 90 staff made up of national professionals and expatriate residents who are able to combine their in-depth understanding of local business, social, cultural and economic issues with their deep functional and industry knowledge. All our local experts are able to draw from the combined skills and experience of other specialists within the PwC network, ensuring that our clients receive world class service drawing from the success of our entire network.

We are extremely proud of our impressive list of clients which, more than anything else speaks for the firm's ability to provide distinguished service. We have earned a reputation for excellence, innovative client service and professional leadership as a result of an exemplary record of achievement. We are focused on ensuring that our work and the development of our business, benefits the countries in which we are based and in which we work.

We also have significant consulting credentials in consumer market, helping institutions navigate the increasingly complex regulatory and tax environment. This experience enables us to share our knowledge of leading practices and emerging challenges with both our consulting and industry audit teams.

Through our work and reputation, we have established and maintained good relationships with our clients. We work with numerous clients in different industries such as consumer and industrial products and services, energy, utilities and mining industries, financial services, government and development partners services, industrial manufacturing, infrastructure and utilities.

Rwanda footprint

Our broad range of service offerings

PwC provides industry-focused services for public and private sector clients in order to build public trust and enhance value. Our service offerings are delivered through the following lines of service; Audit and Assurance, Advisory and Tax. A summary of these is presented below. Do not hesitate to contact us if you require more detailed information about our service offerings.

01. Audit and assurance

PwC has the knowledge and experience necessary to help you with complex financial accounting issues related to matters such as valuations, pensions and share plans, listings. Depending on the independence and regulatory requirements that may be applicable, some of the services we offer include;

- IT consultancy assignments in Rwanda project evaluation, post implementation assessments and cyber security assessments.
- Financial statement audit, regulatory compliance & reporting
- IFRS reporting and assistance on capital market transactions
- Corporate reporting improvement, and financial accounting
- Independent controls & systems process assurance
- Sustainability reporting & Internal audit

02. Business Advisory

PwC is well known in the marketplace for our knowledge and experience in all types of financial transactions.

- Mergers and acquisitions: We focus on the deal continuum from strategy through execution to post deal integration, including financial and operational due diligence, accessing the capital markets and valuing, negotiating and structuring deals. We also offer project implementation advisory services.

- Strategic and valuation advice: We provide independent expert valuation advice for your business; we evaluate the financial implications for example, of corporate debt, restructuring, investments, mergers and joint-ventures; we advise on better managing assets and large capital investments amidst increased competition, or in times of uncertainty; we evaluate technical, operational, market and financial risks.
- Growth or divestments and developing exit strategies: Our specialists help you complete and extract the maximum value from your transactions.

03. IT consultancy services (to financial services institutions)

In addition to Business Advisory, we offer other IT advisory and consultancy services. This would cover the following areas: system selection, system implementation (including project management), independent quality assurance over system implementation and post implementation reviews.

We also conduct comprehensive ICT audits which cover the following areas: IT Governance, IT Risk Management, IT Business Systems Audit, Core Infrastructure Audit and IT Security Audit and assist in ISO certification process.

04. Tax Services

Our Tax practice has two distinct departments: tax services and administration services. The Tax Service line provides direct tax services to companies and individuals including withholding tax management and indirect tax products such as VAT and Custom and Excise Duty planning.

We, in addition to compliance work for our clients, provide tax planning services, tax health checks/audits, client representation and negotiations for and on behalf of our clients in both direct and indirect taxes.

This unique opportunity offers our staff the requisite experience and tools to handle the multifaceted tax obligations of our clients whilst taking advantage of any planning modules offered under any tax jurisdiction.
