

Cloud strategies and managing cloud risks for business leaders

A comprehensive workshop for secure cloud governance, risk and compliance

Upcoming Runs:
Coming Soon!

Day 1: 9:00am to 1:00pm
Day 2: 9:00am to 1:00pm

Understand how to develop a secure cloud platform to meet business objectives, address uncertainties and act with transparency & integrity

Objectives of workshop

Understand and identify the need to develop an effective cloud strategy for governance, managing business risks and ensuring compliance during your cloud journey.

Who should attend?

Business Leaders, C-Suite Executives or Managers who either have moved to cloud or are exploring the idea of taking their business to cloud

Prior knowledge of cloud is good to have but not mandatory

Benefits of attending

Cloud governance provides an overarching framework across all of your cloud initiatives to ensure that your businesses are doing the right things in the right way. At the end of this course, you will have gained:

- An understanding of the value of cloud strategy and governance to enhance data security, manage risks and ensure smooth business operations
- Knowledge of compliance considerations associated with the use of cloud services in an organization
- Necessary toolset to effectively manage the deployment and implementation of your cloud environment

Developing an effective cloud strategy

Governance

You will learn how to design and implement a best-in-class cloud governance framework for your organisation

Risk management

You will gain insights on the risks associated with cloud migration, implementation and operations and industry best practices for managing those risks

Compliance

You will learn to make your cloud environment compliant with relevant regulatory requirements, frameworks and guidelines.

Workshop agenda

Day 1 (4 hours)
