

IFRS Update – Q2 Virtual Special: Tax accounting

Date:
11 May 2023

Time:
2.00pm – 4.00pm

Format:
Virtual (MS Teams)

CPE credit:
2 hours

Objective

Get quick update on changes to IFRS (or SFRS(I)) and interpretations.

Gain insight to the accounting implications of the global minimum tax rules.

Who should attend?

CFOs, CEOs, treasurer, finance managers, credit officer, analysts, investors and internal auditors at all levels.

Overview and benefits of attending

In December 2021, the Organisation for Economic Co-operation and Development (“OECD”) published an agreement to implement a global minimum tax rate of 15% for large companies. The implementation of this global minimum tax represents a significant change to the international tax framework, which will have financial and operational implications.

This workshop is designed to provide participants a refresher on the basic concepts of IAS 12 and provide insight on the accounting implications arising from the enacted tax rules.

The workshop will also provide participants with a quick reminder of upcoming changes to IFRS and SFRS(I), and an update on recent agenda decisions made by IFRIC.

This workshop is virtual. It is only 2 hours. It is designed to be interactive. There will be poll questions and participants may raise questions during the session. Participants will be requested to complete a short quiz after the workshop.

The PwC IFRS Update will be run virtually in Q1, Q3 and Q4, with a different trending issue for each run.
