Explore our Masterclasses with these outstanding institutions

The PwC-INSEAD Strategy Masterclass SSG

The PwC-INSEAD Strategy Masterclass aims to help SME leaders and its emerging leaders understand the critical importance of having a sound strategy in place to guide their business.

Based on the global best-seller “Blue Ocean Shift”, written by INSEAD Professors W. Chan Kim and Renee Mauborgne, this Masterclass is designed to empower its participants with the latest thinking in strategy and how a sound strategy will drive superior performance and growth potential for their businesses.

Participants can expect to be educated on the foundations of a Blue Ocean Strategy and the why and the how of innovation for SMEs in Singapore. The Masterclass will also delve into creating new market opportunities through commercialising innovation efforts, and how to sustain innovative cultures in the organisation.

The PwC-Oxford Advanced Management and Leadership Masterclass SSG

Jointly designed by PwC and Oxford Said, this Masterclass is tailored to support Singapore SME senior business leaders and its emerging leaders advance their management and leadership skills. The programme brings together the best-in-class expertise from PwC’s industry practice and Oxford Said’s academia knowledge, making for a powerful intersection of theory, industry experience and practical application for Singapore SMEs.

This Masterclass will be tailored for the Singapore context and will be adapted from the existing renowned, prestigious “Oxford Advanced Management and Leadership Programme”. Participants can expect to discover, learn, and discuss challenges and opportunities for sustaining strong performance in a globalised 21st century context. The Masterclass will also help leaders advance in leadership and strategy, leverage data and technology and build a sustainable business.

The PwC-SMU Chief Financial Officer Masterclass SSG

Developed with senior finance leaders in mind, this Masterclass includes modules which are relevant to finance professionals, such as: corporate governance, risk management, managing IT in an organisation, financial reporting, mergers and acquisitions, and insights from practicing CFOs.

The programme also serves as a platform for senior finance professionals to exchange knowledge and experiences and understand and explore potential solutions to the challenges facing the finance function and the organisation. The faculty for this Masterclass includes SMU professors and experienced practitioners and subject matter experts at PwC, making for strong foundations in both theory and practical application.

PwC's Academy

Virtual Learning Workshops | On-demand e-Learns | Masterclasses

PwC's Academy is the specialised external training services arm of PwC Singapore. We leverage on our core competencies and deep industry knowledge, and translate them into powerful, practical and relevant experiential learning solutions to support the professional development and upskilling of professionals, managers and executives. In doing so, we aim to help companies (SMEs, large enterprises, MNCs), industries and government built a resilient, agile and future-ready workforce.

The PwC Difference

The **Masterclasses, Virtual Learning Workshops and On-Demand e-Learns** at PwC's Academy are designed and delivered by senior PwC practitioners and subject matter experts; these are practical oriented (featuring relevant hands-on exercises to enhance effective learning), involve real case studies, offer industry-leading knowledge and the latest insights.

Managers and Executives

We help professionals acquire technical skills and knowledge to perform and advance in their careers.

Human Resource and Learning & Development Leaders

We help HR & L&D leaders strategise, upskill, reskill and transform their workforce.

Senior Management & C-Suite

We help senior management and C-suite stay on top of and understand emerging trends and their impact.

Industry

We help industry (For example: government, financial services) understand trends, analyse impact and stay on top of global challenges.
