## ***FinTech Mergers & Acquisitions***

Our FinTech Mergers & Acquisitions (M&A) team has the required experience to assist you through the entire M&A spectrum, from assessing your market entry potential, to valuing potential targets, through to helping you with the operational integration of the new business. Whether you are a tech company venturing in the financial services space or an incumbent financial services player assessing how to respond to the rise of new players, we can tailor our offering to your specific needs.

Some of our services include:

- Digital strategy
- Market entry advice and business plan support
- Market response strategy support (Partner, Invest, Buy)
- Deal identification (including advice on business mix)
- Lead advisory services (including negotiation support)
- Assistance with M&A due diligence (e.g. financial, IT, tax, ops)
- Business/Target valuation and modelling (tailored to your specific needs)
- Assistance with post-merger integration and transition management
