# Consolidated Statement of Cash Flows

For the financial year ended 31 December 2009

## Guidance notes

### Consolidated Statement Of Cash Flows

#### Direct method

1. An entity can present its cash flow statement using the direct or indirect method; the latter is illustrated in this publication. When the direct method is used, the cash flows from operating activities shall be presented as follows:

FRS 7(18)(a)

	2009 \$'000	2008 \$'000
<b>Cash flows from operating activities</b>		
Cash receipts from customers	114,461	143,507
Cash paid to suppliers and employees	(103,335)	(97,716)
Cash generated from operations	11,126	45,791
Interest received	35	13
Interest paid	(8,985)	(9,574)
Income taxes paid	(15,504)	(10,974)
Net cash (used in)/provided by operating activities	(13,328)	25,256

FRS 7 App A  
FRS 7(19)

The rest of the "direct method" consolidated cash flow statement is similar to that of the indirect method.

#### Discontinued operations

2. Non-cash items excluded from profit for purposes of the cash flow statement should include those non-cash items attributed to discontinued operations.

#### Dividends and interest

3. Cash flows from interest received and paid and dividends received shall each be disclosed separately, and classified consistently period to period.

FRS 7(31-34)

The interest amounts to be adjusted against profit after tax are the amounts charged or credited to profit or loss. The amounts to be shown under financing or investing cash flows shall be strictly cash paid or received during the period; differences will be reflected in the changes in operating assets and liabilities or as additions to qualifying assets if interest has been capitalised in the cost of these assets.

#### Additions to property, plant and equipment

4. Additions to property, plant and equipment in the cash flow statement should be net of hedging gains/losses transferred from hedging reserve.

#### Reconciliation from profit after tax to cash generated from operations

5. As an alternative, an entity can present the reconciliation in the notes to the financial statements.
