

Data Analytics through Visualisation

Full-day workshop

What are the benefits and opportunities of using visualisation to perform data analytics?

Objective

To empower senior executives and corporate professionals with knowledge of popular data visualisation tools by providing them with workshop exercises based on real life situations.

Who should attend?

Executives keen to learn how data visualisation can help to spot trends, anomalies or any pattern hidden within the data.

Benefits of attending

Data has transformed the world we live in. More and more companies are using data analytics to excel in the market place. As human minds can process visual objects more easily than data in spreadsheets and reports, data visualization is an effective way to convey complex concepts and identify new patterns in data.

This course will take you through how data visualisation can help to analyse data. We will provide step by step guidance during our hands on exercises covering popular data visualisation tools in the market.

Following the Chinese adage “I hear and I forget; I see and I remember; I do and I understand”, this course allows you to learn by doing. We will also share with you experiences and case studies by practitioners bringing alive real life scenarios.

We will address questions such as:

- How can data visualisation create impact by uncovering patterns and trends in the data?
- What are the visual analytic tools available?
- How can I learn the basics of the key features in these tools?
- What are practical hints and tips in data visualisation?

The benefits this will provide you are:

- Recognise the application of data visualisation in business settings
- Hands on experience on data visualisation tools
- Recognise practical hints and tips on data visualisation
- Improve use of visualisation to enhance your decision making

Workshop agenda

An overview of Data Visualisation for data analytics

- Recognise how data visualisation helps in analytics through exploratory analysis
- Recognise the landscape of tools available in the market for data visualisation
- Self service analytics with 'slide and dice' capabilities for impactful communication
- Leading practices in data visualisation

Intro to PivotCharts using Microsoft Power Pivot

- An overview of key features of PivotCharts including:
 - ✓ Creating charts from multiple tables (sheets)
 - ✓ Unravelling the power of Data Slicers
 - ✓ Say goodbye to complex 'vlookups' and 'index-match'
- Hands on exercises using PowerPivot PivotCharts
 - ✓ Introducing Table joins using PowerPivot
 - ✓ Advanced PivotCharts

Intro to Data Visualisation tools: Power BI, QlikSense and Tableau

- Learn how to tell a story using visual analytics through the use of powerful dashboards and filters
- Create interactive Dashboards on using Data Linking on Pages – a new way to draw insights from your data
- Hands on exercises:
 - ✓ Create good looking charts and graphs through simple drag and drop of variables
 - ✓ Built in interactivity between different charts on a consolidated dashboard
 - ✓ Drill down techniques to quickly understand trends & patterns that exist within your data – however voluminous it is
 - ✓ Use of geographical location mapping
 - ✓ Dashboards as part of story telling

Additional real life examples

- Real life examples from data practitioners covering a number of industries and business settings

About your workshop facilitator

Loo Soo Kiat
Director, PwC Singapore

Soo Kiat has over 12 years of experience in providing advisory services to clients primarily in the Technology, Media and Telecom munications industry on matters ranging from strategy to execution.

Soo Kiat is focused on solutions that are underpinned by data and analytics, combined with his deep industry experience to derive insights with impact. He has worked in the US and Australia, and was previously an internal auditor at a major telecommunications service provider in Singapore.

Registration fees (all fees include 7% GST)

PwC Clients & Alumni: S\$840.00
Public: S\$890.00

10% group discounts for 3 participants & above

How to register

To register, simply select the course via our Training Calendar (www.pwc.com/sg/academy) and click on the chosen course date to access the digital registration form.
