The Academy extends its professional certifications offering by project management certifications

PwC's Academy has extended its professional certifications offering and includes project management certifications. In co-operation with PMI (Project Management Institute), we bring credentials designed for project practitioners of all education and skill levels:

- **Project Management Professional (PMP)[®]:**

PMP credential is the most important industry-recognized certification for project managers. Globally recognized and demanded, the PMP[®] demonstrates that you have the experience, education and competency to lead and direct projects and bring projects to successful completion.

- **Certified Associate in Project Management (CAPM)[®]:**

CAPM is a valuable entry-level certification for project practitioners. Designed for those with little or no project experience, the CAPM[®] demonstrates your understanding of the fundamental knowledge, terminology and processes of effective project management.

Eva Hupková, The Academy Leader, adds:

"PMI's certification programmes are rigorously developed, globally accredited and easily transferable across borders and industries. By gaining the certificate, professionals demonstrate their expertise and commitment to the project management profession and increase their value on the labour market."

About The Academy

The educational institute, The Academy, which has operated on the Slovak market since 2009, is the unique creation of consulting firm PwC. As one of the few such institutions in Slovakia, it offers the internationally recognised certifications and qualifications of leading professional organisations such as the ACCA, CIMA, PMI, and CIPD. We also organise training courses on various topics in the field of finance, accounting, and human resources. For more information, please visit www.pwcacademy.sk

O PMI

PMI is the world's largest not-for-profit membership association for the project management profession. PMI's worldwide advocacy for project management is reinforced by its globally recognized standards, certification programme, and professional development opportunities. <http://www.pmi.org/>
