Unified document to confirm the state registration

In an attempt to simplify the registration process, from 17 December 2012 on the registration of legal entities and private entrepreneurs with the state authorities (including the statistic authorities, the pension fund and the tax authorities) must be confirmed by a unified excerpt from the state register.

These changes were introduced as a result of amendments to the Law on registration of legal entities and private entrepreneurs, to the Tax Code of Ukraine and other legislative acts. Subject to better coordination between the respective state authorities, the amendments should facilitate the registration process.

Reportedly, at the moment the state authorities still issue their separate certificates to confirm the respective registrations.

We will continue monitoring the developments in legislation in this area and will keep you updated.
