New restrictions on imports of goods of Russian origin

July 1, 2019
The list of goods originating from the Russian Federation, which are prohibited for import into Ukraine, has been expanded

The Cabinet of Ministers of Ukraine has expanded the list of goods originating from the Russian Federation, which are prohibited to import into Ukraine.\(^1\)

In particular, from 1 July 2019, the import restrictions will apply to the following groups of goods:

- Products used for animal feeding;
- Phosphoric, nitrogen, potash fertilizers;
- Plywood, wallpaper;
- Shoes and clothing;
- Wires, pipes, tubes, nets, metal cloth, screws, bolts;
- Cars, trucks, tractors, motorcycles.

From 1 March 2020, the import ban will also extend to:

- Railroad cars and trams;
- Vitamins, hormones, antibiotics, vaccines, medicines used in veterinary medicine.

It should be noted that the import prohibition will also apply to goods from any other country, if the origin of such goods is not confirmed by the certificate of origin.

We encourage our importing customers to analyse their own imports and determine the implications of the ban on the import of the above products for the company. If necessary, PwC Ukraine specialists are ready to assist in this and other issues related to customs and international trade.

\(^1\) Decree of the Cabinet of Ministers of Ukraine N 535 dated 15 May 2019
New restrictions on imports of goods of Russian origin
