

PwC TREASURY and WORKING CAPITAL

Is Your Kyriba Investment Working as Hard as It Should?

A focused 4-week engagement to score your platform, surface timely wins, and build a roadmap that turns underused capability into measurable value.

- Kyriba Enhancements
- Underutilized Licenses
- Regulatory Change
- AI Development
- ERP Migration

WHY NOW

New Kyriba features you're not using	Investor pressure for better cash visibility
Regulatory shifts demand tighter controls	ERP Migration challenges
AI capabilities going untapped	Licenses paid for but sitting idle

HOW IT WORKS — 4 WEEKS, START TO ROADMAP

WEEK 1	WEEK 2	WEEK 3	WEEK 4
Assess Kickoff and stakeholder alignment. Current-state workshops. Review configurations and processes.	Analyze Deep dive against Kyriba industry-leading practices. Identify enhancement and expansion gaps.	Score Maturity scoring across key dimensions. Objective baseline. Benchmark against leaders.	Roadmap Scorecard delivery. Prioritized quick wins. Expansion opportunities with ROI framing. Leadership readout.

WHAT YOU WALK AWAY WITH

01 Proprietary Scorecard Objective maturity scores across defined capability dimensions — a baseline leadership can act on.	02 Prioritized Roadmap Timely wins and strategic initiatives ranked by impact and effort, with clear next steps.	03 ROI-Framed Opportunities Enhancement and expansion recommendations tied to business outcomes your CFO can recognize.

WHY PwC

Treasury-First Lens: We assess through the eyes of a treasurer, not IT. Every finding ties to a business outcome.	Deep Kyriba Expertise: We have implemented, configured and enhanced Kyriba across industries with our in-depth expertise with the platform
Proprietary Scoring: Objective maturity model, not opinion-based slides.	Actionable, Not Academic: No 60-page report - a scored baseline, prioritized opportunities, and a roadmap you can execute.

100+
