Corporate responsibility

At PwC Vietnam, we believe in adopting responsible business practices that create positive change in society. We wish to contribute to the community in which we operate in a meaningful and positive way. As such, our vision is to implement a corporate responsibility program that is sustainable in the long-term and has a positive impact on our firm and the community.

Our corporate responsibility strategy focuses our time, efforts and commitments into two main pillars:

- Disability and disadvantage: we believe in diversity and inclusion where everyone has an opportunity to fully participate in creating business success and each person is valued for his or her distinctive skills, experiences and perspectives. We believe that all individuals are entitled to equal opportunity. In Vietnam, individuals with disabilities or from disadvantaged backgrounds often lack the same opportunities as those more fortunate.
- Education: we are a people and service based organisation that understands the importance of education. We have a strong belief in the benefits that an education provides to an individual. It inspires young people. It opens doors. We believe that children should be given the opportunity to maximise their capabilities through good education, which creates the opportunity for success and achievement.

Diversity & Inclusion

Our Diversity & Inclusion programs aims to create value for our people and our clients by promoting diversity, fostering a culture of inclusion, and supporting a healthy work life balance.

Diversity within PwC encompasses people from different backgrounds and with different points of view working together to generate the greatest value for our clients, our people and our society. We strive to recognise, respect, value and leverage each individuals differences.

We have three primary focus areas:

- Gender: Promote gender equality in the workforce and in leadership
- Disability: Address the prejudice and lack of opportunity for people with disability and support people with disabilities entering the workforce
- LGBT: GLEE@PwC Vietnam is our inclusive business network for Gays, Lesbians and Everyone Else. We believe that difference is something we all have in common, regardless of what that difference might be. GLEE@PwC Vietnam provides opportunities for business networking, knowledge sharing and personal and professional development with a deep value and respect for the diversity of views, needs and aspirations of our members.
